President Grant's Levee—Dr. Mary Walker, in Reform Costume, Attends—Appointments—Return of Southern Tourists—Encouraging Report.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, May 6, 1869.

CALLERS ON THE PRESIDENT.

The number of visitors at the White House this morning was larger than usual. Nearly all of them had an opportunity of seeing the President. Mr. Ashley, lately confirmed Governor of Montana, was among the visitors, and took leave of the President previous to his departure for Montana. Dr. Mary Walker was also present at the general reception. She was attired in her "dress reform costume," and was gratified by a brief conversation with the President.

APPOINTMENTS.

Wm. Carey, of Galena, Ill., who was confirmed Assessor of Internal Revenue for Utah, has written to the Department declining the appointment. Fifty-one Assistant Assessors of Internal Revenue were appointed yesterday, the majority being for Pennsylvania districts.

The following appointments were made to-day by the President: Robert C. Kirk, Minister Resident to Uruguay; Jas. Washington Purviance, U. S. Attorney, Western District, Tenn.; John H. McNiel, Assessor of Internal Revenue, First District, Ind. Collectors of Internal Revenue: Ralph Hill, Third District, Ind.; Ephraim Latham, Third Ala.; Andrew A. Lewis, First Ind.; Ed. Fullings, Sixth N. C.

Gen. Terrill, of Indiana, has been appointed by the President Third Assistant Postmaster General, in place of Zerrely.

Erastus D. Chipman has been appointed Postmaster at Saugerties, N. Y., and E. H. Sears Postmaster at Staunton, Va.

RETURNED FROM THEIR TOUR.

The party consisting of ex-Governor Ward, of New Jersey, Col. Forney, Gen. Van Wyck, of New York, and others, who started on a Southern trip two weeks ago, have returned to Washington. They went as far as Florida, stopping at the principal cities and towns on the way. All concur in the report that the industrial prospects have improved. The negroes are working better this than last year, and the whites generally seem to be more industrious. The crops look well. The people are anxious for northern immigration, and millions of acres of good land are for sale, and great inducements offered to capitalists. The party were everywhere well received.

CUSTOMS.

Customs receipts from April 26th to 30th inclusive, were $2,560,780.

NEW YORK CITY.

Arrival of Steamers—French Atlantic Cable—Bail in an Indiana Divorce Case Forfeited—Cuban Belligerent Rights—The Cuban Expedition—Small Pox Ship at Quarantine.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 6, 1869.

The steamers Ariel, from Copenhagen, City of Dublin, from Liverpool, and Smidt, from Bremen, arrived to-day.

It is stated the French Atlantic Cable Company will land their shore end at Cape May. From the Cape three main lines will deviate, one running across the bay to Lewes and to Washington, another direct to Philadelphia, and the third along the shore north to New York. The steamer having the cable on board will sail from France in July.

The bail of Geo. W. Chandler, an actor, said to be playing in Chicago, and accused of obtaining a divorce in Indiana without notifying his wife, and then marrying again, was declared forfeited yesterday, he having failed to appear. The amount was $25,000.

A Washington special says the Spanish Minister has informed the State Department that should this country recognize the belligerent rights of the Cubans, Spain will regard it as a declaration of war and authorize the fitting out of privateers, which cannot but do great harm.

Wm. E. Dodge was re-elected President of the Chamber of Commerce to-day.

It proves that the Arago took no recruits for Cuba. The schooner Grapeshot, which it was reported had sailed for Cuba with volunteers, still lies in this harbor. A large number of Spencer rifles for the Spanish troops were forwarded by the Columbia to-day. Mr. Plumb, our new Consul to Havana, sailed on her.

The British brig Lizzie, from Caribarien, arrived to-night. She brings the passengers who were taken from the schooner Lizzie Major by the Spaniards and were subsequently released from prison.

The steamer Ariel, which arrived here this morning from Copenhagen, had several cases of small pox on board. The sick were sent to the small pox hospital on Blackwells Island, and measures taken to prevent the spread of the disease among the other passengers. The steamer will be detained at quarantine until the danger is over.

The Pheta Delta Chi Association is holding its twenty-second annual Convention at the Astor House. Delegates from the South are present for the first time since the war.

Fire in Philadelphia—Loss $50,000.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, May 6.—Mann's printing office and bindery, on Ledger Place, was damaged by fire this morning to the amount of $50,000. The stock and printing presses were mostly insured in New York offices. Harvey & Ford, bone turners, in the same building, suffered a loss of $5,000. Hooley & Son, silk manufacturers, and White's Dental Depot, in same building, suffer loss by water. Total loss about $50,000.

—E. A. Vermann, a Notary public, was found dead in his room at St. Louis, on Wednesday, having committed suicide by taking morphine. Pecuniary embarrassment and dissipation are suspected to have caused the act.

CHICAGO.

Army Orders—G. A. R. Delegates.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, May 6.—The following orders have been received at Lieut. Gen. Sheridan's headquarters: Brevet Gol. A. D. Nelson has been ordered to Fort Dodge, Kansas, to assume command of a detachment of the Tenth Cavalry at that point; Brevet Maj. Gen. Madison Mills, Surgeon in the United States Army and Medical Director of this city, has been ordered to Oregon and Princeton, Mo., for duty connected with the medical department Lieut. T. C. English, Second United States Infantry, has been ordered to rejoin his regiment at Atlanta, Ga. Capt. E. B. Kirk, Assistant Quartermaster, is to be relieved from duty at Fort Lyon, C. T., by an officer to be designated by the Post Commandant, and will report at Ft. Dodge *via* Ft. Hays, to Col. A. D. Nelson, commanding detachment 10th U. S. Cavalry. Brevet Lieut. Col. W. T. Gentry has, by his request, been relieved from the duties of acting Judge Advocate of the Department of the Missouri, and ordered to report to the Lieut. Gen. at Chicago. The headquarters of the 12th Infantry are to be established at Angel Island, California, whence the companies will be distributed over the various posts now occupied by the 9th Infantry, which is under orders for the Department of the Platte. The 14th Infantry has been ordered to rendezvous at the Presido, San Francisco, preparatory to leaving for Louisville, Kentucky. Orders are to be issued for consolidation of the 21st and 32d regiments of Infantry.

General Sherman has ordered that commissaries take an accurate and detailed inventory of stores actually on hand, once a month, and all deficiencies exceeding three per cent. allowed for ordinary wastage, be accounted for, first, by Boards of Survey and by affidavits; second, by certificates of disinterested commissioned officers, or by other satisfactory evidence, according to the circumstances of the case and the nature and magnitude of loss.

The following are the Illinois delegates to the National Annual Encampment by the Grand Army of the Republic, to be held in Cincinnati on the 15th instant: Hasbrouck Davis, E. S. Solomon, John L. Beveridge, R. W. Smith, and Richard Hayden, Chicago; C. E. Lippincott, John Cook, E. N. Bates, and John Snyder, Springfield; Giles A. Smith, Bloomington; W. R. Hodley, Rockton; J. W. Bouth, Decatur; John Tilson, Quincy; R. M. Hough, Wheaton; Julius White, Evanston; S. N. Nhunn, Joliet; Thos. G. Lawler, Rockford; T. H. Cavanaugh, Carrollton; S. H. Allten, Tamarva; P. A. C. Case in Chancery Decided—The Disestablishment Discussion in British Parliament—Another Carlist Conspiracy Discovered in Spain.

[By Telegraph to the Pittsburgh Gazette.]

GREAT BRITAIN.

LONDON, May 6.—In the Vice Chancellor's Court to-day, the case of the United States of America vs. Colin M. Rae, came up for decision. This was a bill brought to obtain from defendant an account of and delivery of moneys and goods received by him while acting as gent of the Confederate Government during the late insurrection. The Vice Chancellor, Sir Wm. James, in his decision, said there was no evidence to show that any money or goods belonging to the plaintiff, in his own right, as distinguished from his right as successor to the Confederate Government, had reached the hands of defendant, and judgment was given in favor of defendant, with costs.

LONDON, May 6.—*Midnight.*—In the House of Commons, this evening, Mr. Otway, Under Secretary for Foreign Department, in reply to an inquiry from Mr. Gourley, said instructions had been sent to the British Minister at Madrid in regard to the seizure of the brig Mary Lowell, but they could not now be made known.

The House in Committee resumed the consideration of the Irish Church Bill. Sir Geo. Jenkins, Conservative member for North Wiltshire, moved that the clause providing compensation for Maynooth College from the church funds, be stricken out. Mr. Gladstone protested against the inconsistent conduct of members who voted for the grant to Presbyterians, and who opposed compensation for Catholics, consenting to make use of religious prejudice in their endeavors to defeat the Government, which was dealing out equal justice to both. A protracted discussion ensued, on the advisability of drawing compensation for Maynooth College from consolidated or church funds. Mr. Bright opposed placing an additional burther on the tax-payers. Mr. D'Israeli supported the grant, but urged it be paid out of the consolidated funds. A division was finally had on the amendment offered by Sir Geo. Jenkinson, and it was rejected by the following vote: For amendment 192, against it 318—Government majority 126.

Mr. Aytown, Liberal member for Kirkaldy, moved an amendment that the compensation to Maynooth College take the form of annuities, instead of a capitalized sum.

After a long discussion the House again divided, with the following result: For the amendment 198, against it 305—majority against 107.

Other amendments proposed were then withdrawn, and clauses thirty-nine and forty, in regard to the College of Maynooth, as originally introduced by Mr. Gladstone, were adopted.

SPAIN.

MADRID, May 6.—In the Cortes yesterday the article of the National Constitution guaranteeing liberty of worship was adopted by a vote 164 against 40. Serrano, Prime Minister, strongly urged the postponement of the contemplated ministerial changes until the form of Government had been definitely settled upon, which, after an interchange of ideas, was agreed to.

MADRID, May 6.—A Carlist conspiracy has been discovered in Barcelona. Thirty-six arrests have so far been made, in connection with the affair. Many army officers are implicated. Important papers containing details of the plot have been seized.

Massachusetts Diocesan Convention

[By Telegraph to the Pittsburgh Gazette.]

WORCESTER, Mass. May 5.—The Seventy-ninth annual session of the Massachusetts Episcopal Diocesan Convention assembled in this city to-day, Bishop Eastburn presiding. Nearly all the parishes in the State were represented by pastors and lay delegates. The Bishop in his address reported eight hundred and twenty-one confirmations and seven deaths, and two priests ordained in the diocese during the year. The reports of the churches and charitable societies show a good degree of prosperity and permanent growth. The session continues to-morrow.

WORCESTER, Mass., May 6.—The Episcopal Diocesan Convention adjourned this afternoon. The only important action, aside from routine business, was the establishing of missionary operations in the Diocese on a voluntary basis, in place of making contribution a church requirement. This action will largely increase the missionary spirit in the church.

Pacific Railroad—Last Rail.

[By Telegraph to the Pittsburgh Gazette.]

RENO, Nevada, May 5.—*To O. H. Palmer, New York:* The last rail will be laid on Saturday by Ex-Governor Stanford, of California, President of the Central Pacific Railroad. A party will go out to-day for that purpose. They will take with them the last tie, made of California laurel and highly polished, and the last spike, made of solid gold, weighing over twenty ounces, with inscriptions. Celebrations will be held at Sacramento. GEO. H. MUMFORD.

Latest From Mexico.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA May 6.—Intelligence from Mexico to the 30th has been received A revolution had broken out in Guerriere. Troops had been sent to suppress it and some fighting was reported. The feeling of dissatisfaction with the present Government extended throughout the Republic, and the political struggle between the Government and the opposition was severe, each party using all means in its power to gain supremacy. Charges of corruption are freely made on both sides. There is danger of the success of the secession movement in the Northern States. Lerdro De Tejada was threatened with assassination, and guards had been placed on all the residences of ministers. News from Washington in regard to President Grant's policy towards Mexico was anxiously looked for. General Escobedo remained at San Luis Potosi. Mr. Schlossero, the Russian minister, arrived at the capital.

The Southern Railroad Project.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, May 6.—Capitalists and railroad men have arrived here this morning from Chattanooga, Knoxville, Lebanon and Springfield, Tenn., from Danville, Campbellsville and Lexington, Ky. Governor Bullock, of Georgia, and several more represent that State. Other delegations, one from Charleston, South Carolina, are expected to-night. Their object is to confer in regard to the Southern Railroad from this point. The number present is thirty. They will remain several days. To-day they visited the Merchants Exchange, Board of Trade Rooms and Bankers of the city. The City Council to-morrow will probably take some action in reference to the road that will afford a basis for deliberation.

The Political Campaign in Virginia.

[By Telegraph to the Pittsburgh Gazette.]

RICHMOND, May 6.—Both parties are preparing for an active campaign in this State. James H. Platt, Jr., of the Wells party, was unanimously nominated by the Convention, in session at Petersburg, for Congress from the Second District. Charles W. Butts has been agreed upon for Congressman at Large on the Walker ticket. Walker and Wells will stump the State in a few days.

The State Convention of colored men will assemble here May 27th, to consider the total exclusion of colored citizens from any position of trust or profit and from the jury box.

Coal Strike Postponed.

(By Telegraph to the Pittsburgh Gazette.)

SCRANTON, PA., May 6.—Notice will tomorrow morning be published in the *Republican*, of this city, from the officers of the miners' general councils that the contemplated suspension is postponed until further orders.

Millvale Borough Council Meeting.

Council convened Wednesday evening, May 5th, at the usual hour.

Members present—Messrs. Brown, Coates, Dempsey, Johnston and McConnell; Burgess Williams in the Chair, and C. A. Burrows, Clerk.

The minutes of the last meeting were read and approved.

On motion, Mr. Brown was excused from serving on the Auditing Committee, and Mr. Johnston substituted.

The Burgess announced that no response had been made by the Directors of the Poor of Allegheny City in the matter of opening or vacating so much of Sheridan street as is necessary to accommodate parties who desire to improve their property on the line of said street.

On motion, Mr. Johnston was appointed a committee to confer with the Directors of the Poor, and ascertain what they purpose doing in the matter above referred to.

The Committee on Recording the Map of the Borough, Mr. Coates, reported that the legal technicalities had been complied with. Report accepted and committee discharged.

The Committee on Ordinances reported the draft of an ordinance granting the right of way to the Ewalt street and Millvale Bridge Company, which was laid over until next regular meeting.

On motion, warrants were ordered to be drawn in favor of the late Special Election Board, and also for the several paid officers of the borough.

On motion, Council adjourned to meet on Wednesday evening, May 12th.

Dr. Livingstone.

The London *Times* publishes the following letter from Roderick J. Murchison:

SIR: The intelligence from the Cape of Good Hope which has appeared in the *Times* and other newspapers, that Dr. Livingstone had arrived at Zanzibar in January and had proceeded homeward, is, I regret to state, entirely contradicted by information which I possess, I have a letter from Dr. Kirk at Zanzibar, dated the 5th of March last, and at that time no news whatever respecting the great traveler had been received for a long period. Judging from his own letters of December 14th, 1867, and also from the intelligence derived from Arab traders, I was at last led to believe that he was proceeding along the eastern shore of Lake Tanganyika, and that at the place called Ujija he would meet with provisions, medicine and letters, which were sent thither from Zanzibar. But this view can no longer be entertained, for Dr. Kirk informs me that ivory traders have recently arrived from the very region in question, and had heard nothing of him.

In this dilemma I may suggest the following hypothetical explanation: If Livingstone, when at the southern end of Lake Tanganyika, satisfied himself that its waters were about 1,800 feet above the sea, as stated by Burton Speke, he would necessarily infer that they could not flow northward into the much higher equatorial lakes.

In this place he would abandon the northern route, in which it was supposed he might find the waters of the Tanganyika flowing into the Albert Nyanza, of Baker. Having also ascertained that the Tanganyika was fed by rivers flowing from the south and east, it would be evident under these circumstances that this vast body of fresh water (300 miles in length) must find its way to the west, and he would then follow the river or rivers which issue on the west coast of Africa. Under this supposition he may be first heard of from one of the Western Portugese settlements, or even from those on the Congo.

If this view be entertained, we cannot be expected to hear of Livingstone for some time to come, as the distance he would have to traverse is vast, and the region unknown.

Again, this hypothesis explains why no intelligence whatever respecting him has been received at Zanzibar, inasmuch as he has been travelling through a vast country, the inhabitants of which have no communication with the eastern coast.

While, however, I correct the erroneous intelligence which has just appeared, I beg your readers to understand that I still entertain a well-founded hope that my distinguished friend—thanks to his iron frame and undying energy—will issue from Africa on the same shore at which, after a very long absence, he reappeared after his great traverse of Southern Africa.

Two Hundred Pounds of Gold in One Chunk.

An Australia letter says: There is no doubt as to what has been the most important and interesting event of the past month. Everybody has heard again and again of the great "welcome" nugget, and models of it have been the centre of attraction in international expositions. But a greater than the "welcome" nugget has now turned up, and has been duly christened the "Welcome Stranger." The story of its discovery is extremely interesting. Two men had been working for a long time in a claim at Dunolly, where a year or so ago they had found a couple of nuggets weighing respectively one hundred and eight and thirty-six ounces. They had again, however, got "dead broke;" the storekeepers had refused them any further credit, and they were feeling very badly indeed, when one of them in following the claim by working round the roots of a tree struck something hard with his pick immediately below the surface. He had no idea, however, what had stopped his pick, for miner-like, he grumbled out, "Confound it, I wish it was a nugget and had broken the pick." The nugget, when it was unearthed, was found to weigh 210 pounds troy, and on smelting, it yielded 2,268 ounces and ten pennyweight pure gold. It was scarcely covered by the earth, and was less than a couple of inches below the surface. Dunolly, the ground on which this golden monster had been found, is a very old digging, but has never been regarded as a first-class field. Every now and then a big nugget has been found, but whatever gold has been obtained has been discovered in pockets. The "Welcome Stranger" is the largest nugget on record in Australian mining annals, and, in fact, is believed to be the largest mass of gold ever discovered. The largest nuggets previously found in Australia were as follows: The Welcome nugget, found at Ballarat at a depth of 180 feet and weighing 184 pounds nine ounces; the Blanche Barkly, found at a depth of 13 feet, at Kingower, and weighing 145 pounds three ounces; a nugget at Canadian gully, Ballarat, weighing 134 pounds eleven ounces, at a depth of sixty feet; the Lady Hotham, weighing ninety-eight pounds.

Crop Prospects in California.

The rains which have fallen during the three days just past were greatly needed by the late grain crops, and came in good time to save them from failure. The early planting may now be considered safe from all possible harm. A few warm days will start it to heading, and with anything like an average May, it will mature to a full crop. The late planting was in danger of blight from the dry north winds that prevailed for so many days in the latter part of March and the first half of April. This danger is now over, and we can safely say there was never, at the corresponding season of the year, as good a prospect for an immense grain harvest as is now presented in California. Average May showers, with westerly winds, will perfect the backward wheat fields everywhere, and produce a good deal over average crops to the acre, and we have probably a fourth greater area in wheat this year than any preceding one.—*Sacramento Union, April 19.*

CLIPPINGS.

THE Ligonier *Republican* says: Never in the history of Northern Indiana was there a better prospect for bountiful wheat crops than there is at the present time. The wheat fields are as green as meadows in June, and not a particle winter killed, and more than an average amount sown.

ON last Friday forty-five pauper negroes were forwarded to Washington by the Freedmen's Bureau authorities of Louisville, the city officials having refused to provide for them. One of the negro men, it is said, was 113 years of age, and had passed 108 years of his life as a slave. Seven of the party were idiotic or imbecile.

A HARDSHELL BAPTIST preached in Washington City, lately, and took for his text, "God made man in his own image." He then commenced, "An honest man is the noblest work of God." Then he made a long pause, and looked searchingly about the audience, he then exclaimed, "But I opine God Almighty hasn't had a job in this city for nigh on to fifteen years."

THE challenge of the Harvard crew for a four-oared race has been accepted by both of the English Universalists—Oxford accepting absolutely, and Cambridge "conditionally," whatever that may mean—there can be no doubt that the long-talked of trial of strength will at last take place. The race has been fixed as a four-oared one. English boating clubs generally row in "eights," the American crew, more accustomed to six-oared contests. The race is to take place in August.

THE whole number of daily newspapers in the United States is only 542, and the whole number of newspapers 5,353. Great Britain has only 89 daily papers. The largest number in any State is in New York, which has 77 daily, almost as many as Great Britain, 535 weekly, and a total of 676. Pennsylvania has 495, of which 46 are daily; Illinois, 415; Ohio, 376; Indiana, 359, and Missouri 240. Massachusetts has only 229 and Iowa only 228, and of all the southern States, Texas has the largest number, 114.

A VELOCIPEDE is a very costly article. A gentleman in Hornellsville, N. Y., recently bought a velocipede, for which he paid $100; broke a plate glass window, for which he paid $40; cut his face and neck, for which he paid the doctor $5; ruined one pair of pantaloons, for which he paid $11; frightened a horse so that the animal ran away and broke a buggy, for which he paid damages amounting to $60; and finally smashed his velocipide by running into a brick wall, leaving him $218 out of pocket and a court-plastered face to show for it.

A COMPANY of Pennsylvania capitalists, says the Clarksville (Tenn.) *Patriot*, are about closing a contract for the old Abernathy Iron Works, in the vicinity of Round Pond, about five or six miles from this city. A party has been prospecting for this company throughout the iron region of this State, and we are gratified, says that paper, that they have selected this location in preference to all others. In conversation with a gentleman who was prospecting, he pronounced the old sites in this vicinity by far more advantageous than those of any other sections he had visited.

IT IS STATED that a pitched battle took place recently in a Methodist chapel in Yorkshire, England. The contending parties were the trustees of the edifice on the one side, and the Sunday school teachers on the other—the latter having refused to retire from the premises when ordered to do so by the trustees. The projectiles used in the engagement are said to have been bibles and hymn books, and certainly no more formidable war material could be brought into play than the former, for we read that the word is "quick and powerful and sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow."

SINCE Rhode Island's Boanerges began to thunder so vociferously, a good story has come out in relation to his marriage. It seems that Bishop Clark was summoned to follow him to Washington, and there wait his pleasure before tying the matrimonial knot. Finally, the great event was consummated, and without receiving any fee the good Bishop returned to his labors. He was of course somewhat surprised that he was not at least reimbursed for his expenses of travel and residence at the Capital. The story finally leaked out, when Mr. Sprague's agent at once came to the Bishop with a check for $1,000. This the Bishop refused, on the ground that it was too much. "Oh, no," said the agent, "this is probably what he would have given you if he had thought anything about it at the time, and he will be glad when he learns that I have taken care of the matter."

THE TWO DEATHS.

I.

Two maidens walking beside a river.
The one in pall, the other in gray.

Two maidens walking beside a river,
Oh now fair to see were they!

And has gold rings on her hand,
And a knife with a silver crest;

The other has nought but her long long hair,
And a white rose on her breast.

And one with cruel, bitter words,
Handleth herself right scornfully;

And the other says but "He loves me best,
The more is pity for thee and me."

II.

Two maidens walking beside the river,
Who used to live like sisters of yore.

Two maidens walking beside the river;
The one shall rue it for ever more.

The thorn scray grows at the horn of the river;
Dark on three sides, and dark over head.

Dark with the shadow of hemlock and nightshade
That fatten the best on the flesh of the dead.

A fair, fair hand on the shining dagger,
A glint in the sunlight, a long wild scream,

A groan, and a splash in the raving torrent,
A white rose eddying adown the stream.

III.

A low dark room where the sunshine wanders
Through blood-tinted shields of amusing rare.

A lone hard woman with long gray tresses,
Whose proud soul bends not to smile or prayer.

A playful child with a posy of flowers,
And one white rose in its plump red hand;

Says, "Mother, wear this for your darling's sake,
She has brought it for you from a far-off land."

A wild shriek ringing from cope to foundation;
A struggle to speak, no word ever said.

A white, white shroud 'round a haggard dead body,
A grave in the choir, and the mass for the dead.

IV.

No priest sung prayers for her who died
By the thorn bush on the river's side,
Long, long ago.

But the mass is said, and the dole is given,
And the lamps send their black smoke up to heaven,
For her who has passed away unshriven,
Into the realm of woe.

PENNSYLVANIA.

SCARLET fever is raging violently in Chester county.

WEST CHESTER had a snow and hail storm last week.

LANCASTER is about to get another steam fire-engine.

EIGHT mad dogs were killed in Doylestown last Thursday.

LEBANON has a population of about 9,000 persons and eleven churches.

A SHEPHERD dog went mad in West Chestor last Saturday and was shot.

IN York county the fruit seems to have been uninjured by the severe frosts of last week.

JAMES M. BREDIN, Esq., of Franklin, is announced as a candidate for State Senator, to succeed Brown of Mercer. A. P. Duncan, Esq., is also a candidate.

THE Gordon well on the one acre tract of the Baney Farm, Cherry Tree run, flowed ninety barrels during the twenty-four hours ending at twelve o'clock on Saturday.

JAMES C. BROWN is again a candidate for the State Senate in Mercer county. Harvey Robinson, ex-member, and S. H. Miller, Esq., of the Mercer *Dispatch*, are also candidates for the nomination.

THE Scranton *Republican* says: Saturday, Peter Holland, a mine laborer at Leggitt's Creek shaft, was instantly killed by a fall of "top coal." His head was crushed out of all semblance of humanity.

THE Pottstown Car Works are now engaged on a contract for the building of fifty gondola, or box, cars, twenty-eight stock cars and twelve large eight wheeled coal cars for the Pennsylvania Railroad Company.

Two houses in Brownsville were entered by burglars on Sunday night; from one, the store of Mr. Skinner, some $200 worth of goods were stolen, but nothing was taken from the other, which was the dwelling house of Mr. Nelson Snowden.

THE steam tannery of Leighow, Anthony & Co., in Northumberland, was destroyed by fire on Thursday night of last week. The loss is estimated at $4,500, two-thirds of which will be covered by insurance. The fire was the work of an incendiary.

THE velocipede has appeared in Kittanning; if it had come a little sooner it would have been hailed with something akin to rapture probably, but it has quite recently become the fashion to decry the two-wheeled monster, and Kittanning is, as usual, fashionable.

SOME nights since, while Emile Rosenstein, a lad of thirteen years, and a student at Andalusia College, was on a visit to his friends in Philadelphia, he got up in his sleep, as is supposed, and fell from the third story window of his room—no doubt causing instant death.

MR. JOHN HOCKLEY, the venerable Cashier of the old Bank of North America, in Philadelphia, has resigned. Mr. Hockley has been an officer of that bank for forty-four years, always doing his work acceptably, and his kind, genial face will be much missed from his old place.

THE literary societies of Washington and Jefferson College have invited Dr. McCosh, of Princeton, to deliver the address before them at the next annual commencement, which is to take place in Washington on the 5th of August, and that distinguished gentleman has accepted the invitation.

THE Philipsburg *Journal* says: "A sawyer employed in the mill of J. J. Zimmerman & Co., has borne off the palm for rapidity in sawing—having on Friday last, April 30th, cut 31,108 feet of inch lumber in ten hours. The greatest number of feet cut in the same length of time, in these parts, previously, was 25,000."

THE *Raftsman's Journal* says: "Another of the prisoners confined in our jail made good his escape one day last week. He solicited the privilege of going into the yard, but not returning, search was made, when it was discovered that a new bed-cord had been thrown over the wall, by means of which he succeeded in scaling it.

SOME nine weeks ago Mary Enochs, a young lady of sixteen years, residing at No. 2316, Germantown avenue, Philadelphia, was bitten in the hand by a strange cat that had entered the house, and which she was endeavoring to catch. On Monday morning she was seized with spasms, and died in terrible agony from hydrophobia in the evening.

ON Friday week James Toole, of Emaus, Lehigh county, made a bonfire of some rubbish in his garden, and several little girls amused themselves by stirring around and playing with the embers. The clothing of a little girl six years old, daughter of J. McElroy, became ignited, and she was almost immediately enveloped in a sheet of flame. The poor little child was so badly injured she died the same night.

A SINGULAR accident occurred to Geo. Wilson, of Rising Sun, Md., on Thursday last. H was driving home, when a bolt came out and the shafts dropped down on the horse's heels, which caused him to jump so suddenly that Mr. W. was thrown out of the wagon head foremost. He alighted on the side of his face and had one of his ears cut or torn off close to his head as clearly as though it had been severed with a knife. He was very little otherwise hurt, and is about again, but minus an ear.

ABOUT a fortnight ago a mad dog passed through Moreland township, Montgomery county, biting nearly all the dogs on the route. He carried a pup up the hill by the head, bidding defiance to his pursuers. Going to Mr. Boyer's he bit a hog and killed his turkey gobbler, when he left for Jacob Fleshorn's, where he was dispatched. Unfortunately, Mrs. Boyer handled the dead turkey, and having accidentally cut her finger previously it is feared the virus has entered the blood.—*Doylestown Democrat.*

THE miners in the neighborhood of Scranton are in great excitement. A strike is imminent, and some men have already suspended work. Most of the storekeepers have given notice that they will not sell goods to miners on credit during the suspension of work, as many of the bills thus made during the last suspension still remain unpaid. The miners employed by the Pennsylvania Coal Company at Pittston held a second meeting last Saturday, reconsidered their previous action, and resolved *not* to suspend.

HUNTINGDON is excited over a series of robberies which were committed in that borough and vicinity last week. On Sunday night a pair of valuable horses with saddle, harness and buggy were made way with; on Monday $900 worth of goods were taken from a store; on Tuesday, two citizens were stopped by four disguised highwaymen who robbed them of about $40; and on Thursday a country store at Six Mile Run was entered and dispoiled of a quantity of goods and some $40 in money. The perpetrators have yet to be discovered.

THE Lewistown *Gazette* says: An ore exactly resembling what is known as the Franklinite of Sussex county, New Jersey, was discovered on Friday last on the lands of William A. McManigle, Esq., on the south side of Long Mountain, about four miles from Milroy, and is pronounced by a gentleman familiar with the business, and who tested it, to have in connection with it the vein of zinc ore almost invariably found side by side with the Franklinite, which is described as a mineral of iron black color, about as hard as feldspar, and slightly magnetic, and is considered as peculiarly adapted to making the best quality of iron and steel.

THE Village *Record* says: Mad dogs are becoming alarmingly prevalent in our neighboring counties, every exchange that comes to us contains an account of their ravages. Three dogs went mad at Yardleyville, Bucks county, on Saturday evening of last week, and were killed. One of them, belonging to Charles Shoemaker, was attacked with convulsions in the bar-room, and showed evident symptoms of hydrophobia. He was seized before any one was injured, and then shot. Another dog at Shoemaker's, one at Devlin's and one at Captain Lovett's were killed, having given indications of the disease. It is said that all these dogs were bitten by the one shot by Isaac H. Hillborn a short time ago.

ON TUESDAY afternoon last, while constable Watkins, of Mahanoy township, was conveying a man named Robert Beveridge to prison in this borough, the prisoner got off the cars at Combola while they were in motion, and attempted to escape. Mr. Watkins pursued him, and when within a few yards of him, Beveridge turned around and told him that if he came nearer he would knock the head off of him. A struggle ensued, and Beveridge grasped Watkins' hand in which there was a pistol, while with the other he attempted to strike him with a stone. In self-defense, then, Watkins fired, the shot hitting Beveridge in the groin, from the effects of which Beveridge died on Thursday night at eight o'clock. Beveridge was charged with stealing a pair of boots in Mahanoy City, and the Justice had ordered him to be committed for trial. —*Pottsville Journal.*

ON the evening of April 14th, a daughter of Isaac Stoll, of Milliford township, aged about twenty years, apparently died. She was ill for some time previous, of consumption, though not confined to her bed. On that day she suddenly fell back on her chair and apparently departed this life. The funeral was to have taken place on the following Sunday. As the coffin was opened at the grave for the friends to take their last look at the departed, as is the custom of that locality, it occurred to the clergymen that the corpse had a remarkably fresh appearance. The lips were red and the face flushed. Upon speaking to the parents thereof, it was determined to postpone the burial until Sunday. The remains were then deposited in a well warmed room for the night, but notwithstanding this, on the following Sunday, the corpse had still the same aspect and appearance. The burial was as in consequence again postponed for an indefinite time. This is a singular case—most probably of trance.

OHIO.

HON. John A. Bingham is at his home in Cadiz.

THE Volcano Furnace at Massilon has started to work again.

A STABLE with its contents, valued at three thousand dollars, was burned in Xenia on Tuesday.

MR. J. FRANKLIN, proprietor of an itinerant velocipede school, died Saturday in Galion last week.

A BOY named William Jones was killed near Spring Hills, Champaigne County, by a falling tree some days since.

IN New Rumley, on Tuesday, a large new frame dwelling house belonging to Mr. Manbeck, was destroyed by fire. It was valued at $3,000.

THE Canton *Repository* says: In Urbanna, because Mr. S. W. Hitt entertained a temperance lecturer, the whyskyites tried to burn his property, and broke two of his windows, 6x10 feet, the largest in Ohio.

A COLORED man, ninety-four years old, is in the Green County jail, charged with harboring a stolen horse. It is said he fought under Jackson at New Orleans, and was a servant of Ex-President Buchanan about ten years.

ANDREW SHEPHERD, Sr., and James Sifret have resided in Madison county for the last half century, and although in different townships, the distance between their residences, on a direct line, does not exceed two and a half miles. One day last week these two pioneers happened in London at the same time, and while the former was engaged in conversation with Jesse Watson, Mr. Sifret came up and was introduced to Mr. Shepherd, the ceremony being done in a jesting manner—Mr. W. taking it for granted that the two neighbors for fifty years were old acquaintances. But it turns out they were not, and that this was their first meeting.

THE Springfield *Republic* says: About one mile and a half this side of Tremont, stands a dwelling of which a harrowing account comes to our ears. The neighbors and the whole country roundabouts are sleepless o' nights concerning it. Lights are seen moving in it, borne by no substantial earthly inhabitant. Strange rappings occur within its walls, and if the sheeted dead do not squeak and gibber along its shadowy passages, it is because nobody stays to listen to them. The sewing-girl who worked there not long ago found herself growing pallid with wakeful terror, and declared, "she wouldn't stay another week for anything in the world." And the mystery continues and ever increases, as such mysteries will.

WEST VIRGINIA.

WEST VIRGINIA is putting up a building for a State Normal School at Guyandotte.

A MAN was drowned in the Ohio river at Catlettsburg, Ky., on the night of the 4th inst., who is supposed to have been George M. Hursey, of Parkersburg.

AT Williamsport, Grant county, this State, Miss Bettie S. Williams has been appointed Postmistress, vice E. C. Trowbridge, Esq., resigned.—*South Branch Intelligencer.*

LEWIS SPANGLER, a boy thirteen or fourteen years of age, was killed on the 21st ult. by the falling of the roof in Laidley & Gardner's coal bank, while digging coal.—*Charleston Journal.*

THE Monroe *Republican* says Mr. Chas. Johnson met with a melancholy fate on his farm on Turkey creek, on the 20th inst. Mr. Johnson with his brother and a neighbor were engaged in removing a log. In attempting to roll it over a rock, the log passed over sooner than was expected and caught the deceased, crushing his whole body and causing immediate death.

Cossack Communism.

The Pall Mall *Gazette* says: "Count Bismarck, a statesman, whose foresight and thorough knowledge of European politics even his enemies do not attempt to deny, made, a few days ago, a remark which will appear surprising to most Englishmen. Speaking to a Russian diplomatist, he said: 'I do not fear your armies; I fear the influence of your communal institutions on European society.' Accustomed, as we are, to regard Russia as the type of a despotically governed country, it may seem strange to find it looked upon by a great statesman as a hot bed of communism. The fact is easily explained. Communal institutions, in a certain sense, have always been the rule in Russia. The land surrounding each village is divided among the families in proportion to the numbers of members, (a new distribution being made every ten years,) and the village, as a body, is responsible for the payment of a yearly sum to the free-holders.

"Under such a system it is evident that the industrious must pay for the idle, and that incentive to individual enterprise is very much weakened. That the idle form the majority seems to be shown by the following fact: Since the emancipation a law has been passed enabling the inhabitants of any village, by a demand signed by two-thirds of the heads of families, to become, on payment of a sum fixed by official valuation, freeholders of the land they occupy. In all Russia such a demand has not yet been made. While the peasant was a serf his position was but little studied by foreigners; but since the emancipation the exponents of the doctrines of communism have been watching with much interest the trial of their principles among a free peasantry. They have as yet derived but small comfort from the contemplation, the most noticeable effect being an enormous increase of drunkenness."

One of the Democratic "Victories."

The Bucks County *Intelligencer* says that in the contested election case of Taylor vs. Reading, the time allowed by Congress for taking testimony closed on last Tuesday. The aggregate result thus far reached gives the election to Taylor by about 125 to 150 votes. The same paper states that Dr. Reading and his friends admit that Taylor will gain his seat, and it is alleged that the Dr. would like to withdraw from the contest without further effort.

In some of the townships in Bucks county the most barefaced frauds were practiced. Persons who had not paid tax, and for whom the collector had claimed exonerations, produced receipts given them by the Democratic collectors, and were thus allowed to vote. False naturalization papers were circulated, and numbers of foreigners voted upon them, and have since been convicted of the offense, and are now serving out a term of imprisonment.

SOME years since a wild goose was shot in Washington Territory, and a few grains of wheat were taken from its craw. Being large and full, they were preserved and planted. The yield was found so great as to lead to its propagation, until this variety, which is known in the Territory as the "Goose Wheat," has become a standard one in that section of the country. Samples of this wheat were recently sent to the Agricultural Department at Washington. Upon examining the samples at the Museum, of which there are some 2,000 varieties, the same wheat was found, being one of the samples from the Paris Exposition, and was grown in Cuenca, in Spain.

THE St. Louis *Republican* says: We yesterday received Sacramento papers of the 26th of April—*only one week out.* This is the quickest time yet made to this city. From some unexplained circumstance our San Francisco letter failed, though we have newspaper files from that city up to Sunday, the 25th.

DR. WHITTIER

CONTINUES TO TREAT ALL private diseases, Syphilis in all its forms, Gonorrhea, Gleet, Stricture, Orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.

A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.

It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.

The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A.M. to 8 P.M. Sundays 12 M. to 2 P. M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh, Pa.

RIVER NEWS.

The river continues to recede steadily with seven and a half feet in the channel by the Monongahela marks, last evening. The weather yesterday was cloudy and cool, with every appearance of rain. Mercury at 5 P. M. 55.

The towboats Greyhound, Tiger and Fearless departed for Cincinnati, taking in the aggregate 251,000 bushels of coal.

The Argosy departed for St. Louis last evening with a fair trip and engagements below sufficient to fill out. Pilots, Oakes and Mulrine.

The Kenton was due from Portsmouth last evening, and will return as usual to-day.

The Grey Eagle, Capt. C. L. Brennan, is the regular packet for Parkersburg to-morrow, leaving at noon.

The Messenger, Capt. Jesse Dean, Jas. Russell, clerk, is announced for St. Louis forthwith. She is an excellent boat and offers superior inducements to passengers. Messrs. Flack and Collingwood are her agents.

Business continues dull at the landing, the offerings of freight having fallen off materially within the past few days, and boats experience considerable difficulty in picking up a trip.

The Sallie, Silver Lake and Mollie Ebert all arrived at Sioux City on Tuesday, en route from Pittsburgh to Fort Benton.

—The Bellevernon left St. Louis for St. Paul on Tuesday, with 550 tons freight.

—The Bayard arrived at St. Louis, on Tuesday and the Leonidas left the same day for Pittsburgh.

—W. M. Bull obtained a judgment at St. Louis on Tuesday, for $583 against the Home Insurance Company of Cincinnati.

—The steamer G. McC. Porter was seized by the United States Marshal on Tuesday, on a mariner's lien.

—The Camelia, en route from Nashville to Pittsburgh, left Cincinnati on Tuesday, with 300 tons.

—The R. C. Gray and Emma No. 3, were to have left Cincinnati for Pittsburgh on Wednesday.

—The Jim Watson, from Cumberland River to Pittsburgh, with three barges of iron ore in tow, passed by Cincinnati on Tuesday.

—The new steamer Minneapolis met with an accident near St. Paul while coming through the bridge, her chimneys being carried away.

—The new towboat Ironsides, left St. Louis for Keokuk on Tuesday, and it is reported will ply regularly between there and Pittsburgh.

—The R. C. Gray left Louisville for Pittsburgh on Monday, with 300 empty barrels, 300 sacks of wheat, 400 bbls of lime, 1,500 bbls cement, and a lot of sundries. She has engagements for 500 bbls and 400 boxes of starch at Madison.

—The Memphis *Avalanche* says: The clerk of the Will S. Hays charged ten dollars for the transportation of the remains of Mr. Ely, clerk of the ill-fated Thomson, from Pine Bluff to this city. The Clifton conveys the remains to Cincinnati free of charge. It was a very shabby trick, to say the least of the clerk of the Hays, in making the charge; but as he belongs to a class of boatmen generally ignored in river circles, we dismiss him as unworthy of notice.

—The Dubuque *Times*, of Saturday, says: The Armadillo, a Pittsburgh boat, left here a large freight, including 150 packages for J. W. Coy, 137 do for Sampson & Young, 238 do for Waller & Christman, 1,100 do for Connelly, 1,050 do for Andrew & Tredway, 170 do for Moore & Torbert, and a light freight for the country. She was loaded with glass and iron principally. She will be back again in about four days, and will receive down river freight. She was somehow engaged for Cincinnati.

—We clip the following from the St. Louis *Democrat* of Wednesday: It is asserted that our elegant and amiable friend, Captain R. C. Gray,—whose office in Pittsburgh has been open for six years—in order to compete successfully with those numerous steamers that load at Pittsburgh for St. Paul direct, avows his serious intention of stretching the Northern Packet Line down the Mississippi to Cairo, and up the Ohio to the smoky city. Capt. Richard is a large owner, and has potent voice in the Northern Line. He is likewise known to be wide-a-wake and enterprising.

—The steamer Sallie arrived at Sioux City, May 4th, at 10 A. M., nine and a half days out from St. Louis, having passed all the mountain steamers that left St. Louis for eight days previous to her departure; viz: Columbian, Colossal, Silver Lake No. 4 and Mollie Ebert; if not detained by low water, will make the trip through from St. Louis to Benton in thirty days, with 250 tons freight; left Sioux City on the evening of the 4th with a fair trip and passengers for Benton.

River and Weather.

[By Telegraph to the Pittsburgh Gazette.]

LOUISVILLE, May 6.—River rising steadily. Weather clear and windy.

A GREAT SUCCESS!

DEXTER

WASHING MACHINE!

It washes the finest fabrics, without injury, perfectly clean in less than one-eighth the ordinary way. It does not rub the cloth, but performs the cleaning process by steam and the quick action of hot water; it can be operated by a child. Its great cheapness makes it accessible to every family and saves its own cost in doing away with tubs.

PETROLEUM at Antwerp, 52¼f.

GOLD closed in New York yesterday at 13[illegible].

THE suggestions from "A Mother" are noted as pertinent, and will be duly heeded, as entirely in accord with our own settled policy. But the greatest vigilance may be occasionally at fault.

THE English Commons give a decisive majority to a new bill legalizing marriage with a deceased wife's sister. The measure will encounter a more serious opposition among the Peers, and its fate seems, at present, doubtful.

THE English West Indian port of Nassau was the depot of the blockade-runners during our own rebellion. The same port is again turned to a semi-piratical profit, in the interest of the Cuban insurgents, who look thither for all their supplies of war material from abroad. It is about time that Nassau should be declared a general nuisance, and reconstructed accordingly. In the event of an American unpleasantness with Mr. Bull, this reconstruction will be one of the first things attended to.

CLASSIFICATION becomes a highly popular principle among railway-directors. First introduced in Pennsylvania, then adopted by Ohio, the New York Legislature is now entreated to lend its benefits to the Erie road, that is to say, to GOULD, FISK and LAW. These gentlemen ask for authority to classify their directory of fifteen "by lot or *otherwise*," so that but one-fifth shall go out of office in any one year. New York journals expose the movement, and appeal to the Governor for his veto, in case the bill should reach him. The purposes in view under their application are too palpable to need explanation.

IN THE Congressional directory for the third session of the XLth Congress, Senator Sprague gives express direction that he should be recorded as "elected to the Senate as a *Democrat*." In the previous publications of the same directory, he was set down as a *Republican*. He directed the alteration of his political status to be thus announced in December, 1868. Democratic prints which quote his late speeches will take notice and govern themselves accordingly. In the meantime, we congratulate them upon their new and promising recruit.

IN ANOTHER column we publish a very respectable requisition made on GEORGE H. ANDERSON, Esq., by a large number of our representative citizens, asking him to become a candidate for State Senator, subject to the nomination of the Union Republican party. He accepts the compliment and announces that his name may be used in the connection. Mr. ANDERSON has long been extensively engaged in the leather business in this city, is a gentleman of ample means, and possesses all the requirements for making an able, dignified and honest Senator should he be chosen to the position.

GEN. THOMAS A. ROWLEY, despite the earnest wishes of his many friends, positively declines to enter the contest for Senatorial honors, and authorizes us to withdraw his name from the list of candidates. There will be many to regret this decision on his part, as the prospects for his nomination were very flattering, and the party could have secured no better or more able gentleman to succeed Col. ERRETT in the law making power of the Commonwealth. We trust the General will not be permitted to rest long in the retirement of private life he so much covets, as he makes too good an officer to be left alone for any great length of time.

THE REPUBLICAN State officers, whom the people of Pennsylvania elected last October, have entered upon their second terms of office. The *State Guard* observes:

Auditor General Hartranft has made an able, efficient and popular officer, and he enters on his second term as Auditor General with the fullest assurance of public confidence. Surveyor General Campbell has perhaps done more for the re-organization of the Land office, than any man who has filled the position of Surveyor General for many years, and we look to his efforts still further to improve that Department as a source of revenue to the State.

The *Telegraph* says:

Colonel Jordan, Secretary of the Commonwealth, has prepared all the necessary blanks to be used under the Registry Law, and will send copies of the same to the proper county officers within the next ten days.

THE anthracite coal-miners do not strike work. Discovering that such a movement would result in an enormous profit to the companies, which have millions of tons of coal laid up "in stock" for a more active demand and better prices, the miners promptly rescinded their hasty resolution for a general turn-out. They show wisdom, while the employers feel no little disappointment. One company alone has nearly a half a million tons piled up at its Honesdale docks. It is thought others are pursuing the same policy, holding back the bulk of their production from the principal markets. If this production be continued, a temporary advance of prices, in the markets which soon promise to be bare, must eventually be followed with a still larger proportionate decline, after the companies shall reach the limit to their ability to carry the increasing stocks.

THE President will not suffer himself to be drawn into the support of either of the political parties in Virginia. There can be no doubt that his sympathies are cordially with the Radical Republicanism of the State,—none the less for his equally earnest desire that a large class of citizens, who were once leading and influential, may again be inspired with an active interest in its advancement in material prosperity. Gen. GRANT entertains, in common with all enlightened people everywhere, a deep conviction that the wisdom evinced by the class alluded to, in their present hearty acceptance of the new opinions of the reconstructed Republic, must be fruitful of the best results for the more vital interests of the entire South. But neither the President nor the Republican masses of the people will regard this as the fitting moment for resigning, to a class whose probation has not been complete, the absolute control of Virginia affairs. Lending the Executive influence to neither party, but carefully observing the tactics of both, our Republican administration will give a hearty moral support to the fair trial of an interesting issue.

THE CHARGE by the Philadelphia *Post*, against the New York agent of the Associated Press, that the latter was actuated by personal enmity to Mr. YOUNG, of the *Tribune*, in framing and forwarding dispatches to the journals, is contradicted, apparently by authority, in the editorial columns of the New York *Times*, which also says:

None but friendly personal relations ever existed between Mr. Simonton and Young until the detection and exposure by the former that Mr. Young was betraying the news of the Association to the *Post*;—and it was in retaliation for this that Mr. Young invented the charge that Mr. Simonton was "making public opinion" through his dispatches, for Mr. Johnson. But for the detection of Mr. Young's treachery to the Association, the latter charge against Mr. Simonton never would have been heard of.

This is very plain language. Other expressions in the same article refer with equal directness and pointed inuendo to the same "treachery." The *Times* had previously forborne any editorial reference to the scandal. Evidently, as the affair now stands, the Philadelphian edition of the *Tribune* is indiscreetly doing more of harm than of good to its friends. The whole business seems to be bad, and we wish all parties well out of it. But the only feature of it which ought to concern the cotemporary press is presented in the extract which we quote. This involves directly the interests of all journals which rely upon that Association for their distant intelligence, since the integrity of its members and agents stands squarely impeached, and demands investigation.

In the light of the recent revelations, we are reminded of the *Post's* complimentary tribute of last autumn, to the Republican press of Pennsylvania, when it expressly attributed to the New York *Tribune* the chief merit for the October victory in this Commonwealth. We could then account, in another way, for a part of the milk in that cocoa-nut. The why and wherefore of the rest is at last amply explained.

IMMIGRATION.

In the quarter ending September 30th, 1868, there came into the United States to permanently locate 82,895 immigrants. Of these 49,478 were males and 33,417 females; 18,884 were under fifteen years of age, 53,134 between fifteen and forty and 10,877 beyond forty. The nationalities represented were as follows: Great Britain and Ireland, 29,680; Germany, Austria and Prussia, 38,684; France, Spain and Italy, 1,598; general Europe, 5,542; countries of Asia, 4,291; countries of Africa, 57; countries of North America, 2,577; countries of South America, 40; West Indies and all other islands, 417; miscellaneous, 9. There were among them 5,364 farmers; 18,681 laborers; 5,272 mechanics; 3,070 merchants; 1,085 miners; 430 professional callings; 2,152 servants; 831 tradesmen, not mechanics; 1,427 miscellaneous occupations. Without any occupation, 44,583.

The greater proportion of these immigrants migrated to the extreme west, and will enter into agricultural pursuits and swell the products of the country with their labor. We have millions of broad acres awaiting the touch of industry to be converted into smiling fields and farms, and the class of people pouring into our land with every vessel arriving make up the best material for pioneer life, and should be heartily welcomed to our shores.

PETROLEUM REPORT.

The monthly report of the Titusville *Herald* of the production, development and stock of petroleum in the Pennsylvania oil regions has just been published, and as usual, is very clear, concise and interesting. During April the production steadily increased and the daily average of yield reached 11,067 barrels—an increase of 1,276 barrels per day over the March average. This increase was due more to the continual pumping of old wells and to the torpedoing process, than to new developments. The Tidioute district fell off fifty barrels, and the districts along the Allegheny river, south of Franklin, one hundred barrels per day, as compared with the March production.

The product of all the other farms and districts in the region shows either no material change, or else an increase. On Cherrytree run, in the vicinity of Pithole, on Upper Cherry run, and on the farms about the lower part of Oil Creek, the product increased considerably, while on Church run and in the vicinity of Titusville, on the Blood and Story farms, and in the Bull run district, the increase was moderate. In the Pleasantville district the product was not greatly changed from that of last month, the daily average as obtained from the shipments by pipes and teams and the stocks, was 1,700 barrels. In this district there are now no large producing wells, but there are a great many which yield from four to thirty barrels per day. There are, however, a few which produce over the amount last named.

Development has been attended during the month with moderate success, some good wells being obtained. There are now three hundred and thirty-three wells going down and some seventy are about to be commenced. The demand for territory at sale and lease is very good throughout the entire region. On Sage Run, near Oil City, a fifty barrel well, yielding green oil of fifty degrees gravity, was struck, caused considerable excitement and enhanced the value of the property. The Pleasantville district is declining and much interest is manifested in the Cherry Tree Run locality.

The stock of Petroleum increased during the month, and on the 1st of May the total in all hands was 365,970 barrels of forty-three gallons. This stock included the amounts in iron tankage and at the wells, and that on the hands of pipe companies and dealers in wooden storage tanks.

PROGRESS IN KENTUCKY.

A recent event already has remarkable results in the leading Democratic State of the Republic. A new doctrine startles her ninety thousand Democratic majority, and her own leading Democratic organ, the Louisville *Courier-Journal*, is its prophet. The hereditary prejudices of race are boldly assailed, a provision peculiar to her laws from the first day that an organized government was known in the "dark and bloody ground" is openly and vigorously impeached, and a cardinal point in the Democratic faith everywhere is to be expunged from the Kentucky creed, if the most influential Democratic journal of the State, or indeed, of all the old slave-holding States of the South-west, can secure the reformation to which it now stands frankly committed. This is real progress—and it will only be more marked by the ultimate success which we anticipate for the movement.

Kentucky preserves in her code of laws, the doctrine—once so popular in some of our free States, but now effectually abandoned by the last of these,—which excludes black testimony from her courts of justice in all cases, civil or criminal, where either of the parties may be white. She had some show of excuse for this restriction, so long as she legalized the enslavement of the one race for the other—an excuse which never applied to Ohio and some of her sister States of the west and north-west. But that institution has gone down into the dust, under the shock of the rebellion—leaving to Kentucky no traces, except in the Democratic proclivities of her popular opinion in the yet flagrant prejudices of the once master-race, and in the legal restrictions which survive the social conditions which first gave to them birth. The life of slavery is gone, but some of the forms thereof yet live to overshadow the intelligence and patriotism of her people. The substance is no longer there, but traces of its shape remain behind. *Stat nominis umbra.*

And for what good. Why should Kentucky, more than Ohio, or Indiana, or Missouri, cling to the shattered fragments of a system which no human power can ever reanimate with a living and effective shape or strength? Why should *not* Kentucky yield to the newer and truer doctrine, which now rules every State from her southern border to the Mexican Gulf, everywhere else accepted and obeyed as the last irresistible revelation in the gospel of humanity? Must Kentucky forever bruise, and wound, and mortify herself, and belittle the dignity of a great Commonwealth which finds only the Republic to be greater in the family of nations, by continuing, with a blind and mad persistence, to kick against the pricks? Why must an enlightened people—even if at last they be wholly free in spite of themselves—remain bent upon stultifying their intelligence, and dishonoring the pure principles of a jurisprudence which has found, nowhere else that the English tongue is spoken, advocates more eloquent, or clearer, broader, lofder and more profoundly scientific expositions than in the Kentucky tribunals? That State has afforded too many accomplished and renowned lawyers, as well as forensic orators, to the American profession, to do herself credit by upholding for one needless day the mean and narrow restrictions upon the law of evidence—to say nothing of the unstatesmanlike folly which attempts to withstand the march of an enlightened civilization.

Cui bono? That is the question upon which the Louisville paper has spoken. The *Courier-Journal* opens a sudden and crushing fire upon this exclusion of colored testimony from their Courts,—presenting such an array of arguments, drawn from law, from philosophy, from politics, from expediency under the present situation, as well also as from humanity, always progressive, backward if not forward, in the direction of enlightenment, or of barbarism,—that the Kentuckian Democracy must succumb to the pressure of the truth, unless they be even more blind or more mad than their bitterest opponents accuse them for.

We do not care to disparage the motives of our able cotemporary at Louisville, by attributing its movement to that suggestion of politic expediency which yields gracefully to necessity, under the Federal protection of civil rights equally for all men. Were that alone its motive, the *Courier-Journal* is, even then, wiser than very many of the Democratic generation, in more than one State outside of Kentucky. It should have credit, even in that view, for a political sagacity which is a novelty in its own State of late. But we would rather choose to regard that newspaper as taking by chance the high ground on which it professes to stand—the ground of public morality, of reason and of sound law. It has undertaken a great work—the war shattered slavery, but the new birth of opinions in harmony with the last eight years' events, is at this moment going on all over the South, and the one leading influential journal of Democratic Kentucky watches and waits and labors for an honorable deliverance. We must admire the wisdom, as we honor the courage which knows the line of an enlightened public duty, and dares to follow it, in the teeth of every prejudice both of party and of race. Success may be the work of years, or of a generation to come, but when it comes, it will be largely due to the efforts of the journalist who commences this agitation.

PRODUCTION AND PROTECTION.

The Pennsylvania Industrial League, at its session in Philadelphia last week, adopted the following resolutions:

First. That the development of our own resources, and the firm possession of our own markets are much more important than foreign commerce; that by no other method can a durable resumption of specie payment be attained than by increasing home protection.

Second. To accomplish this we must consume home made articles.

Third. Great establishments cannot prosper; small ones cannot spring up with a fickle and unfriendly policy.

Fourth. To promote their growth, Congress must announce, adhere to and steadfastly act upon the policy of defending its own citizens.

Fifth. A protective tariff law should be passed, covering all important articles.

Sixth. A new department should be created, to have in charge the tariff laws.

Seventh. Domestic protection is the best method by which to reduce the price of manufactured goods.

A DISPATCH, from the connecting point of the Pacific Railway tracks, says:

Arrangements have been made, by which, when the last rail has been placed in position, some important personage connected with the enterprise, will drive the last spikes which fasten the rail to the sleeper. The telegraph line will be connected with the hammer in such a way that each blow will open and close the circuit on the wires between New York and San Francisco. Notice will be given on the line when all is ready, and when the performance takes place, each stroke of the sledge will be made manifest in every telegraph office on the line, between the Atlantic and Pacific—a wonderful and appropriate ending to a great undertaking.

Washington Items.

Mr. Motley's instructions, now being prepared at the State Department, are very voluminous, and are being got up by Mr. Caleb Cushing.

The State Department look upon Dr. Brink's despatches from General Rosecrans as of little importance, and intended principally to secure the retention of Mr. Rosecrans. The department has official information that President Juarez will not alienate any of his territory under any circumstances.

This being card day at the White House, the ante-rooms were filled by office seekers, among them J. S. Carlisle, Russell, Jones and others, who failed of confirmation by the Senate. Carlisle and Jones are anxious to have the President take some definite action in their cases.

A member of the Senate Foreign Relations Committee declares that the announced intentions of this government to recognize independence of the Cuban insurgents is without foundation, and is inspired by a desire to influence the gold market. This Senator who enjoys the confidence of the President more than almost any other man, declares that the latter is much incensed at the gratuitous use to which his name has been put in connection with this business. Nor is he at all satisfied with the disinterestedness of the alleged agents of the insurgents in this country. He begins to suspect them of being anxious to impose a false statement of facts on the Government, and he commits the whole question to Secretary Fish, who is known to be opposed to any hasty action in the premises.

—Jay Gould has notified the Postmaster General that unless the Department increases the pay for Erie from $180,000 to $330,000, he shall refuse to carry the mails. The Postmaster General notified Mr. Gould that the demand cannot be acceded to. The pay now received by the Company is the same per annum as received by other roads.

GENTLEMEN—The invitation tendered me in your very flattering note of the 24th of of April, to become a candidate for the State Senate, subject to the decision of the Republican Convention, is accepted.

While cordially thanking you, gentlemen, for the preference indicated in your call, I take this occasion to say that if chosen to fill the vacant seat in the Senate, I will carry out to the best of my ability all measures that will insure economy and purity in the administration of public affairs.

Respectfully, your obedient servant,
GEO. H. ANDERSON.

Pittsburgh, May 6, 1869.

Cuban Expeditions.

The statement is confirmed that the steamer Perreot stiled from New York with a Cuban expedition, and it is added that she carried five hundred men and a full cargo of guns and ammunition. The *Sun* says a revenue cutter sailed from Brooklyn Navy Yard on Saturday last, to head off an expedition which is to sail from the Florida coast. Also that the Government has knowledge of the building of thirty powerful gunboats in New York, Boston and Canada for Spain. Also, that some weeks ago, a prominent rifle manufacturer, a New England man, was given a large order by an insurgent's agent for breach loading rifles. The order was promptly filled, the arms packed in cases, but the manufacturers refuse to deliver them until they are paid for.

A dispatch from Key West announces the departure from that place, Wednesday night, of the British steamer Salvador, crowded with Cuban sympathizers. She cleared for St. Thomas by way of Nassau, it is rumored, in connection with some Cuban expedition fitting out in one of the Gulf ports.

—C. S. Bushwell has been sued in the United States Court at New York, by Jay Gould and Mr. Law, of the Erie Railroad, for one hundred thousand dollars damages. The complainants allege that he conspired to injure their character.

THE REASON WHY

Dr. Keyser's Blood Searcher is the best. It is computed that a man's system undergoes three times a year, that is every four months, a radical and thorough change, that is, that at the end of that time nothing remains in the system of the material of which it was composed before that time. The eliminating organs carry out the worn-out and used-up material, and new matter is made to take its place and carry on the workings of the human organism. The cost of four months treatment in this way would not at the outside be more than ten dollars, and frequently the functions of life have an activity and vigor imparted sufficient to renew them by the use of one bottle, costing only one dollar. No organ of the body but will be benefitted by such a process. The liver, the stomach, the kidneys, the skin, the lungs, are all, as it were, made over again by the impetus given to the stomach and digestive system—old and prostrated people whose systems had begun to languish and decay, have been restored by DR. KEYSER'S BLOOD SEARCHER to youthful health and vigor. Especially is this medicine suitable at this season of the year, when the dormant powers of life, like all the rest of nature are emerging from the chilling and torpid state usual to the cold and wintry months. We know very well that all advertised medicines are apt to be regarded as useless and nugatory, but with DR. KEYSER'S BLOOD SEARCHER we feel perfectly secure in the promise that it must do good. Country merchants and those who supply others with needful things for their wants cannot confer a greater service than to keep a few bottles of this valuable medicine on their shelves to supply their wants. Dr. Keyser will take back every half dozen that remains unsold. It at the same time affords the merchant a good profit, and to those who need it, it is of more value than silver and gold, for what can be of more value to man than a medicine which carries health and life to the suffering invalid?

We earnestly entreat all who read this to try one bottle of Dr. Keyser's Blood Searcher if they need such a medicine, and we will guarantee satisfaction. In order, however, not to be disappointed, let them buy none but that which has Dr. Keyser's name over the cork and blown in the bottle, and in that way the Doctor will hold himself responsible for its results when the directions are closely followed.

SOLD AT THE DOCTOR'S GREAT NEW MEDICINE STORE, NO. 160 LIBERTY ST.

DR. KEYSER'S CONSULTATION ROOMS, NO. 120 PENN STREET, FROM 10 A. M. UNTIL 4 P. M.

WHAT IS A TONIC?

Bear this in mind—that although a tonic is, to a certain extent, a stimulant—a stimulant, unmodified by any medicinal substances, is not a tonic, but A DEBILITANT. In HOSTETTER'S STOMACH BITTERS there is a stimulating element of the purest grade manufactured in this or any other country. Every fiery and corrosive oil or acid which contaminates the ordinary liquors of commerce, is expelled from the rye spirit which forms the alcoholic basis of the BITTERS, by careful and repeated rectification. The juices of the valuable roots, barks and herbs, infused into this wholesome product of the finest grain, still further modify its nature, so that it becomes, in fact, a simple diffusive agent, minus all the heavy and brain exciting properties which belong, more or less, to all liquors in a raw state. It is merely the safe and harmless vehicle which renders the medicinal virtues of the preparation effective—increasing their active power, and diffusing them through the system. Hence the pleasant and gentle glow which is experienced after taking a dose of the BITTERS. Instead of creating headache, as unmedicated stimulants are apt to do, this salubrious tonic is the best known remedy for that complaint. It calms and soothes cerebral excitement, strengthens the nerves, promotes the secretion of the gastric juice, invigorates the bowels, determines the fluids to the surface, improves the appetite, increases the animal vigor, regulates organic action and, from its mild, yet effective, alterative qualities, is the very best preparation that can be administered to the weaker sex in the peculiar difficulties to which their organization subjects them.

FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 6, 1869.

The gold market opened strong to-day at 136, advanced to 136¼ and closed quiet but firm at 136⅛. It is nothing but the high rate for carrying gold that prevents an immediate sharp advance, and also the fear of a tight money market. The reasons for an advance are not, as is commonly supposed, adverse political news or complications arising out of the Cuban and Alabama questions, but we have our very unfavorable trade balance and the fact that but few more bonds can be exported as a basis for a rise.

Government bonds are quiet but firm, and any attempt to buy large lots would advance quotations. There is no investment demand, and only Bankers are purchasers for shipment to Europe.

Stocks are very excited, and wide fluctuations were the order of the day.

Money very scarce.

Quotations as received by Ph. R. [By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 6, 1869.

The stock exchange to-day resolved to discontinue the call of speculative securities. On and after Tuesday next there are to be two calls daily at 10 A. M, and 2 P. M. The first call will consist of Governments, State stocks, Bank shares and non speculative securities generally, with a second call of Governments at the close. Last call will include Governments and State bonds. The speculative railway, miscellaneous and express shares will be continuously dealt in in long room without an official call; these transactions, however, to be printed officially. Money easy at 7 per cent. on call. Sterling firm at 9@9¼ per cent. for prime bankers on 60 days, and 10 for sight.

Gold is firmer and opened at 136, closed at 136¼. The rates for carrying were 7⅛@10 per cent. The clearances were sixty-nine millions. At the Treasury sale to day, upwards of seven millions were bid for the million gold to be awarded; the lowest bid was 135 76-100, award made at 136 7-100 to 136 22-100. The exports to Havana, to-day, were 125,000. In governments, to-day, German houses were large buyers. The market opened with a decline of ⅛ per cent., but this was soon recovered and at the close the market was strong throughout the list.

Coupons— '81, 119@119¼; do '62, 118⅝@118¾; do 64, 114@114¼; do '65, 115¼@115⅜; new, 116⅜@116¾; do '67, 116⅝@116¾; do '68, 116⅛@116¾; 10-40s, 108⅜@108½; Pacific, 106⅜@106⅝.

State bonds are steady; Missouris, 88⅝@88¾; Old Tennesses, 67½@67¾; new do, 66½@66⅝; Old North Carolinas, 60¼@60½; new do, 54¾@55; Old Virginias, 57½@57¾; new do, 52¼@62½; Louisiana Levee Sixes, 69½@70.

Stock market opened weak and unsettled, but soon became steady and afterwards strong and buoyant. The Vanderbilt stocks were the special features, stimulated by Albany dispatches that the bills to legalize the Central scrip dividend and authorizing the consolidation of railroads will pass. The dealings were unusually large and excited. New York Central rose from 170½ to 178½, Harlem from 146¼ to 148¾, and Hudson from 150 to 155½. The rest of the list sympathized with the advance. In the afternoon, the Albany accounts being less favorable, the market was all off, Central falling to 176⅜, and Hudson to 153. The Western shares were irregular, the chief feature being a fall in Rock Island from 135 to 130, with sales of ten or fifteen thousand shares. This caused a general decline, though Wabash, Michigan Southern, Northwestern preferred and Lake Shore were comparatively firm. Late in the afternoon the general market rallied quite sharply, New York Central recovering to 178, Rock Island to 131½, Hudson to 154, and Mich. Southern to 105⅓. Miscellaneous shares higher and more active. Expresses were neglected near the close, and the general market was very irregular. Central, Fort Wayne and Michigan Southern being quite strong, and Rock Island weak, selling down to 129¼.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 6, 1869.

The general markets continue moderately active, and while there seems to be a stronger feeling in regard to some articles, there has, as yet, been no material change in values. Flour is easier in Chicago, and it is probable that both it and Wheat will rule lower, as there is no good reason at present for an advance. The advices from all quarters are very favorable for the Wheat crop, and the indications are that the yield will be considerably larger than last year, as there was a larger area sown.

APPLES—Sales at $5@8 per bbl, as to quality.

APPLE BUTTER—90@$1 per gallon.

BUTTER—There is a continued good demand and we can report regular sales of prime to choice at 38@40.

BEANS—Dull at $3@3,25.

CHEESE—Sales of new Western Reserue at 15@20, as to quality, and New York Goshen at 24@25.

CARBON OIL—Is quoted in a jobbing way at 29@30.

CORNMEAL—$1,50@1.75 per cwt.

DRIED FRUIT — Is a little dull but unchanged. Peaches, 14 for quarters, and 18@19 for halves. Apples, 13@15.

EGGS—Steady at 16@17.

FEATHERS—A shade firmer, and we now quote live geese feathers at 80 to the trade, and the usual advance in a retail way.

FLOUR—The market is steady though devoid of excitement, and prices are unchanged. We continue to quote Spring Wheat brands at $6,50@7,25, and Winter Wheat at $7,50@8. Rye Flour, $7@7,25.

GRAIN—Winter Wheat is in demand, at $1,50 for prime Red, and but little offering. Oats in better supply and very irregular; it would appear, that in some instances, they are being retailed and wholesaled at the same price. We are cognizant of several car loads lots having been sold at 74@75, and we are also cognizant of small sales in store, at 74@75. This places the feed store men in a bad posit on, as they do not seem inclined to buy and sell at the same price. Corn is quiet and unchanged; sales of fair to prime Ear at 78@80, on track and wharf, and 83@85 in store. Rye is being sold at $1,42@1,43, on spot, and $1,44@1,45, delivered. Small sales of prime Spring Barley at $1,70@1,75.

HAY—Continues dull with liberal arrivals, and a supply considerably in excess of the demand; may be quoted, on wharf, at $25@28, for good to prime.

HEMP—Sales at $215.

HOMINY—$5,75@6 per bbl.

LARD OIL—Is quoted at $1,20 for No. 2, and $1,50, No. 1.

MAPLE MOLASSES—Sales in gallon jugs at $1,50@1,75.

POTATOES—Dull as the market is pretty well glutted. Sales on track at 55@60c, and in store at 65@70.

PEANUTS—Sales at 11 cts.

PROVISIONS—Bacon is quoted in a jobbing way at 13¾@14 for Shoulders; 16¼@18 for Ribbed and Clear Sides; and 18@19¼ for Plain and Sugar Cured Hams. Lard in tierces, 19c, and in kegs and buckets, at 20c. Dried Beef, 20@20½. Mess Pork $31¾@32.

SEEDS—Small sales of Clover Seed at $9@9,50 and Timothy at $5,75@6. Flax Seed would command $2,50.

SALT—May be quoted at $1,83@1,85 by the car load, and $1,95@2 for small lots in store.

TALLOW—Is quoted at 10½@10⅝, for rendered, and but little doing.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 6, 1869.

The principal topic of discussion in oil circles to-day was in regard to production, which was occasioned by a telegram from Titusville, reporting that the monthly report of the Herald indicated an average increase of 1,200 to 1,300 barrels per day for April, compared with March. It was generally predicted that an increase would be shown, but the gain, if this report is correct, is much larger than the most sanguine bear expected. We also learn from the same source that the stock of oil in the oil regions has increased some 35,000 barrels, compared with the month preceding. This intelligence, it is but natural to suppose, will have a depressing effect on the market, weaken the bulls and strengthen the bears. As yet, however, it has had but little influence as the market to-day, although a little weak and dull, has undergone but little change compared with yesterday.

It may not be out of place to state that some of our operators are inclined to believe that a ring has been formed for the purpose of breaking the market, and that this reported increase in stocks and productions, is a part of the programme. Generally, however, the report is accepted as fair and correct, and after all, a decline in prices, is not likely to hurt the business here, but, on the contrary, may help it.

CRUDE—The Crude market was very dull and neglected to-day, but a single sale reported, 1,000 bbls spot at 14¾. There seemed to be but little disposition manifested to do anything; it is probable that the market will assume a more definite shape within the next day or two.

REFINED—Sale 500 each May and June at 33¼; 1,000 May last half, at 32¾; 1,000 spot at 32¼; and 500 each July to September at 35.

NEW PUBLICATIONS.

ADVENTURES IN THE WILDERNESS; or, Camp Life in the Adirondacks. By William H. H. Murray. Published by Fields, Osgood & Co., Boston. For sale by R. S. Davis & Co., 193 Liberty street, Pittsburgh.

Recently we gave two extracts of one column each, which are fine specimens, from this capital book. It fairly glows with healthful sentiments, and is unlike so many of the namby-pamby books issuing from the press. There is a vein of practical sense pervading it, and yet it is clothed in language rich and elegant. The author evidently has been a close student of nature, as he has caught the spirit and charm always associated with out-door life. Mr. Murray is the pastor of the Park street church in Boston, and in this volume gives his experience of a summer's vacation in the Adirondack mountains, comprising all the variety of camp life. The sketches are of that hearty, genial type, that the reader soon catches the spirit, and in imagination enjoys the highest mental pleasure. It is a capital book to read just now for persons contemplating a summer's jaunt.

THE SHAKESPEARE TREASURY OF WISDOM AND KNOWLEDGE. By Charles W. Stearns, M. D. Published by G. P. Putnam & Son, New York. For sale by Robert S. Davis & Co., 193 Liberty street, Pittsburgh.

Very few are willing to give much time to the study of the great dramatist's work, unless for some special purpose. This "treasury" will admirably serve to supply the lack of time to study the complete edition of Shakespeare's works. A careful review of this volume will lead the most familiar student of Shakespeare, to wonder at the wonderful grasp and fertility of his mind. The book fairly sparkles with gems, and the valuable commentary and reflections of the editor, Dr. Stearns, gives interest and piquancy to the great theme.

THE CURSE OF GOLD. By Mrs. Ann S. Stephens, Author of "Wives and Widows," "Mabel's Mistake," "Doubly False," etc. Published by T. B. Peterson & Brothers, Philadelphia. For sale by W. A. Gildenfenny, Pittsburgh.

It is conceded that Mrs. Stephens is a popular writer, especially by that class of readers who enjoy the serials of certain extensively read weeklies, published in New York. Much interest is created in this work, because the delineation of the principal character is the *vraisemblance* of a real individual. There are some cleverly drawn pictures of Metropolitan life, slightly sensational, however. The numerous admirers of this lady must judge for themselves whether "The Curse of Gold" equals "Fashion and Famine," regarded as one of her best stories.

THE INGHAM PAPERS: Some Memorials of the Life of Capt. Frederick Ingham, U. S. N., sometime pastor of the First Sandemanian in Naguadavick, and Major General by Brevet in the Patriot-service in Italy. By Edward E. Hale, author of "If, Yes and Perhaps." Published by Fields, Osgood & Co., Boston. For sale by R. S. Davis & Co., 193 Liberty street, Pittsburgh.

These "papers" are in fact the "recreations" of a city "parson," from the severer duties of the pulpit. This book indicates that Mr. Murray is a believer in persons having the largest liberty of thought, and should enjoy pleasure in its fullest sense. Some of these papers have already appeared in magazine form, and are collected to please the host of admirers of the author of "If, Yes and Perhaps." It will not be much loss to the reader to commence with "The Good-natured Pendulum," an amusing article. Each paper, however, is separate and apart, and has peculiar merits, as the reader will easily see on glancing at such as "Round the Worldin a Hack," Friends' Meeting," "How Mr. Frye would have preached it." Mr. Hale possesses singular gifts as a writer, as the two volumes published amply demonstrate. Some of his admirers think he is worthy of a place in American Literature, which Hawthorne adorned.

LOST IN PARIS, AND OTHER TALES. By Edwin Hodder. Published by J. B. Lippincott & Co., Philadelphia. For sale by R. S. Davis & Co., 193 Liberty street, Pittsburgh.

Young people will be delighted with this book, for its lively vein, in describing men and things. The vicissitudes attending young Raymond Elliott, on his visit to Paris, are graphically pictured. His experience among the "light-fingered" of the gay capital had, however, a salutary influence as the sequal shows. The short stories are varied and interesting, and just the kind to interest youth.

BUSY HANDS AND PATIENT HEARTS; or, The Blind Boy of Dresden and His Friends. Translated from the German of Gustav Nieritz. By Annie Harwood. Published by J. B. Lippincott & Co., Philadelphia. For sale by R. S. Davis & Co., 193 Liberty street, Pittsburgh.

Lessons are taught in this little book, which boys and girls would be largely the gainer, if they would put in practice the principles inculcated. Neither poverty or adversity discouraged the family group delineated so charmingly. The story is one of tender interest, and teaches that those who try to do right will always find friends in time of need. The work, like "Lost in Paris," is elegantly gotten up.

THE LITTLE PEAT CUTTERS; or, The Song of Love.

KATE AND HER BROTHER; or, The Young Orphans. Published by Henry Hoyt, Boston. For sale by R. S. Davis & Co., Pittsburgh.

The first named volume gives an interesting history of two orphan boys, Davie and Robin Malton, who had early in life been cast upon the cold charities of the world. Effie Gresley, one of the central characters in the story, illustrates the graces of a cheerful heart. The companion volume, both forming a part of the admirable "Sunday School Series of Choice Religious Works," published by Mr. Hoyt, is a story of orphanage, in which the hand of God is signally displayed to "Kate and her Brother." The benefits of early religious training are happily illustrated. Like similar works of this series, they are admirably suited for Sunday School libraries.

MARK, THE MATCH BOY; or Richard Hunter's Ward. By Horatio Alger, Jr. Author of "Ragged Dick," "Fame, Fortune," etc. Published by Loring. Boston.

"Ragged Dick Series" is rather a shabby name, and yet, considering the class of characters discribed, is very proper. This volume, third of the series, gives the career of a poor boy who earned a small pittance from selling matches. While in a prostrate condition one day, owing to the want of proper nourishment, he was kindly cared for by one who had come up from the same poverty-stricken condition, through whom he found openings that resulted in improving his condition. Finally, he is claimed by a rich uncle, and is educated in fine style. Mr. Miner, Fifth avenue, can supply the book.

LITTLE PEA-NUT MERCHANT, or Harvard's Aspirations. Published by Henry A. Young & Co., Boston. For sale by J. L. Read & Son., Booksellers and Stationers, Fourth avenue, Pittsburgh.

In this story we have beautifully illustrated what may be accomplished by a little boy, of right principles. It shows the culture of a good mother, in opposition to the fanciful proud notions of a dissipated father. Harvard Hoyt, the peanut-merchant, leading character in the story, was moved to noble deeds of action to counteract the baneful course of his parent. Step by step he overcame the difficulties that hedged his movements, and finally rose to eminence. "Lina," who died, lends additional charms to the story—illustrates the blessings of a changed heart.

CLEAN YOUR BOOTS, SIR. The history of Robert Rightheart. A story for boys. Published by Henry A. Young & Co., Boston. For sale by J. L. Read & Son, Fourth avenue, Pittsburgh.

Boys especially will learn in this story that a conscientious regard for truth and right doing, even in little things, will most certainly result happilly in after life. Robert, the hero of this story, learned to do right when quite a child, and in the Providence of God, owing to the feeble health of his father and the death of his mother, was compelled to clean boots and such work to help his afflicted father and younger bothers. His upright, manly course made him friends, who got him a situation in India, where he rose from an under clerk to be a prominent merchant. From youth to mature years, in adversity and prosperity, he always honored God.

NORTH AMERICAN REVIEW, April, 1869. Published by Fields, Osgood & Co., Boston.

This grand old quarterly is elegantly printed, each number comprising 350 pages. The articles of this number are but eight, besides the critical notices of new books. The first paper is entitled "Cotton Mother and Salem Witchcraft," in which this subject is treated at length. Much interest will be felt in the article on "The Talmund." There are also two or three papers that ought to be widely read. We mean those on the "Sanitary and Physical Relations of Tobacco," and the "Financial Condition of the United States." Dr. Hammond in discussing the former, assumes that the use of tobacco in *moderation* lessens the destruction of the tissues as a whole, and especially diminishes the wear and tear of the nervous system. It may be true, but we doubt the theory. In the paper on Finances the writer thinks that the nominal wealth of the country has been increased by the war, but the real wealth of the country is diminished; the rich are richer, and the poor are poorer. The other papers are worthy of a careful reading. This quarterly is a credit to the literature of our country, and should have a subscription list worthy of its merits.

BREAKING A BUTTERFLY; or Blanche Ellerslie's End. Harper & Brothers, New York, have just published this romance in paper covers, by the author of "Guy Livingstone." It gives a series of portraits of men and women of the fashionable type, and is written in rather a florid style. Love scenes are a prominent feature of the romance, and, of course, it will be extensively read. The illustrations are in keeping with the text.

HARPER & BROTHERS send us through Henry Miner of this city, "It is Never Too Late to Mend. A Matter-of-Fact Romance," one of the cheap series of Reade's novels. It is nicely printed, with trimmed edges, and containing 242 pp., at the trifling sum of thirty-five cents. The merits of Mr. Reade's writings are too well known to need commendation from us. The same publishers have favored us with a copy of "That Boy of Norcott's," by Charles Lever. This novel is 323 of Harpers' Select Novels. Anything written by Lever is likely to contain piquant sketches. It is a story of Irish, English and Continental life, and furnishes a fine field for his vein of writing. Characters are presented in a life-like manner.

THE following is current, though not in the papers: Large man is looking at a painting in the window; big man pushes him; large man turns round indignantly—"Do you know whom you are pushing sir?" "No, and I don't care a—durn;" "Sir, I am James Fisk, junior!" "Are you? well, I am John C. Heenan, senior!" "Oh! Ah! Indeed! Permit me to make room for you to look at this charming picture." And the two lions stood lovingly side by side.

TO THE PUBLIC.

The "Grand Army of the Republic" is composed of Soldiers of the Union who served in the late Rebellion. The Private Soldier is the peer of the highest officer. The objects of the organization are charitable, benevolent, just, social and patriotic, and should command the respect of all good citizens.

To extend a helping hand to the widows whose husbands and sons were our comrades, many of whom lie buried on the thousands of battle fields or in the cemeteries of the land, and to assist in the support of crippled soldiers, and the education of the soldiers' orphans, we respectfully ask the patronage of a generous public.

The Diamond Alley sewer will soon be completed.

Is there no ordinance providing against wheeling barrows over the side walks?

The hills surrounding the cities are beginning to look attractive in their spring verdure.

Chas. Bradley was fined three dollars yesterday, by Mayor Drum, for fast driving.

The Sewer on Sheffield street, Fifth ward, Allegheny, is rapidly approaching completion.

The Committee on Fire Engines and Hose, of the Allegheny Councils, hold their regular meeting to-night.

About two and one-half million bushels of coal have been shipped to lower ports withing the past few days.

Work has been resumed on the North tower of St. Paul's Cathedral. It will be a twin to the one recently completed.

The impurity of the Allegheny water is charged with being the cause of so much sickness in this city at the present time.

The hotels are doing a lively business, many country merchants being in the city to purchase their spring and summer stock of goods.

Bock Beer is the ruling German star just now. The emblematic sign of a goat over most of the saloons means, we presume, to go at the beer and be knocked with two horns.

Committee Meetings.—The Street Committee and Committee on City Property of the Allegheny Councils met last evening. Nothing but the usual routine business was transacted.

Fifth Avenue was remarkably crowded with vehicles yesterday afternoon. The avenue was blocked up several times. The police were kept busy in endeavoring to clear the thoroughfare.

One solitary wight, suffering from the effects of an overdose of whisky, appealed to the clemency of Mayor Drum yesterday morning. He was provided with lodgings in jail.

Loafing.—The Allegheny police arrested several boys for loafing on Chestnut street last evening, on complaint of a storekeeper in the vicinity. They each fined three dollars and costs by by Mayor Drum.

Cash —Daniel Hine was before Mayor Drum yesterday, charged with selling liquor on Sunday, on oath of John Cash. The accused keeps a saloon on Lacock street, Fourth ward, Allegheny. Warrant issued.

The enterprise of contemporaries in finding mad dog items is quite commendable, but we will wager a big apple that not a single case of hydrophobia has thus far been discovered in the canine tribe of the city.

Gov. Geary, Gen. Sickles, Gen. Burnsides, and a whole host of distinguished military gentlemen are expected to be in the city next Monday night to participate in the dedication of the Lodge room of Post No. 3, G. A. R.

Wife Whipping.—John Smith, a resident of the Seventh ward, Allegheny, was brought before Alderman Arent, yesterday, charged with indulging in that manly (?) amusement—wife whipping. He was held for a hearing this afternoon.

The Allegheny Fire Alarm Telegraph has been thoroughly overhauled and repaired, and is now in perfect working order. Mr. Rodgers, who has been engaged for the last three weeks in making the repairs, will leave for home this evening.

Diamond Alley.—Diamond alley, between Smithfield and Wood streets, continues closed to all travel except by pedestrians, in consequence of the construction of the sewer, which has been completed to a point about half way between the streets named.

Ascension Thursday.—Yesterday, forty days after Good Friday, was, in the Church calendar, Ascension Thursday. It was observed as a holiday of strict obligation by the Catholics and as a festal day by the Episcopalian, Lutheran and other denominations.

At the next meeting of Councils the Market Committee will report favorably to the purchase of the Lyon property, on Fifth avenue, for a new market place. The report was withheld at last meeting in order to obtain the refusal of the ground in a legal manner before action should be taken.

Runaway.—Last evening a horse attached to a light buggy took fright on Western avenue, Allegheny, and ran away. The driver, Mr. James Cransan, was thrown from the vehicle but fortunately not seriously injured. The horse continued his flight and was finally brought up on Hand street, Pittsburgh.

Hotel Robbery.—Some enterprising hotel thief enered a room occupied by the barkeeper in Shaffer's Hotel, Birmingham, Wednesday night, and abstracted therefrom a new suit of clothes and a silver watch. The robbery was not discovered until yesterday morning, when the necessary steps were taken for the arrest of the thief.

For Recorder.—We direct attention to the communication elsewhere published in the interest of Mr. Augustus Beckert for Recorder. Mr. Beckert had his left leg taken off in the war, and presents strong claims on the sympathy of his party. He is honest, sober, industrious and capable, and would make an excellent officer.

Quarrel Ended.—Mrs. Julia Mesner and Mrs. Sarah Franklin, of the Seventh ward, Allegheny, had a dispute yesterday afternoon. They adjourned to Alderman Arent's office to settle the dispute. The official, after hearing the case patiently, imposed a fine of three dollars and costs on Mrs. Franklin, she being decided the aggressor.

Cross Suit.—Arthur Martin, the drayman who had the difficulty with W. C. Matthews, the conductor on the Birmingham Passenger Railway, an account of which we published yesterday, made information before the Mayor, yesterday morning, charging Matthews with assault and battery. The accused was held to bail for Court.

An Intruder.—Jacob Swager, yesterday afternoon, being somewhat intoxicated, entered the house of Mrs. Wilhemina Schafnit, on High street, Seventh ward, Allegheny, and attacked that lady with a club. He was stopped in his amusement by one of Alderman Arent's police, who happened to be passing, and arrested him. The Alderman fined the fellow three dollars for his disorderly conduct.

American Builder.—We have received from Messrs. J. Washington & Co's., literary depot, No. 71 Federal street, Allegheny, the May number of the Chicago *American Builder and Journal of Art.* It is a very interesting number and should be largely circulated. Washington & Co., are the agents for it in Allegheny.

A Morgue is badly needed in Pittsburgh. The body of the man found dead at the Point, yesterday morning, was left in the sun, near the filthy necessary of the Tombs all day long, and had not been removed at a late hour last night. A little more humanity might have been exercised by the Mayor, but it shows the necessity for a dead house where the unknown deceased may be kept till identified.

The County Improvements.—The proposed improvements on the Court House and Jail have been under way for some time, and are progressing as rapidly as the nature of the case will permit. The excavation on the south side of the warden's house is nearly completed, and the jail wall at that point has been torn away. The earth from the north side of the jail, where the new offices are to be erected, is being removed rapidly.

Dr. Gleason's Lectures at Lafayette Hall are splendidly illustrated with a great variety of costly; curious, wonderful and intensely interesting manikins, models, &c.; and are attended by large and intelligent audiences each evening. The subject for this evening's lecture will be the Eye, Ear, Sore Throat, Catarrh, Diseases of the Throat, &c. Each lecture is worth ten times the price of admission.

Ben Franklin Insurance Company.—In our notice of this very valuable Company yesterday we forgot to inform our readers that Mr. R. E. Herron had been appointed general agent. Mr. H. is an energetic and experienced young man, just such a man as all first class companies should have. Courteous and upright in all his dealings, we bespeak for him a useful corner in this very important position.

Decoration Day.—The Executive Committee appointed by the convention of the various Posts of the G. A. R. of the county, to make all general arrangements for "Decoration Day," will meet at City Hall this Friday afternoon, at 4 o'clock, for the purpose of their appointment. A general and cordial invitation is extended to all other associations and persons who take an interest in these ceremonies, to be present by representatives or in person, to assist the Committee in organizing a programe for the occasion.

Lamp Explosion.—About half past eight o'clock last evening, an oil lamp exploded in a feed store at the corner of Wylie and Logan streets. The oil was scattered in all parts of the room, and a general conflagration was anticipated. An alarm was sounded from box 45, and the fire department of the first district responded, but before it arrived the fire was extinguished. There was no damage done, further than the destruction of the lamp and the oil it contained.

Large Vote.—At the Temperanceville Fair, which closed last week, the contest for the beautiful American Button hole, overseaming and family sewing machine, was decided in favor of a worthy lady, and the handsome amount of $1,080.50 was realized, there having been 10,085 votes polled. There were four contestants. The machine was a very fine one and from the salesrooms of Mr. James Espy, the sole agent, corner of Fifth avenue and Market street. No machine in the market is now attracting more attention and favor.

Serious Fall.—Wednesday afternoon, Mr. Ferdinand Hohman, a carpenter, while engaged about a new house in Sharpsburgh, fell from a scaffolding to the ground a distance of fifteen feet. He was picked up in an insensible condition and brought to his boarding house, on Second street, Third Ward, Allegheny, where Dr. Hardtmeyer attended him. He received several very severe bruises on his body, but the main injury suffered seems to have been in the head, although there are no outward signs of injury. He is lying at his boarding house in a very precarious position, and it is feared the injuries may result fatally.

Identified.

The man discovered lying on the wharf Wednesday night, and who died before he could be removed, was recognized yesterday as a deck hand, who had been employed on the steamer Argosy, but his name has not yet been ascertained, or anything definite as to the cause of his death. Dr. C. Le Moyne, after having examined the body, stated there were no external marks of violence sufficient to cause fatal results. The inquest was adjourned until three o'clock to-day.

Afraid of Them.

J. P. Padden made information before Alderman McMasters, yesterday, against C. G. Hainds and his two sons, A. L. and John Hainds, for surety of the peace. The prosecutor keeps a grocery store on Beaver avenue, Sixth ward, Allegheny. He alleged the accused came into the store Wednesday evening and got into a dispute, during which they threatened to take his life. It seems the parties had previously a misunderstanding and were on bad terms. Warrants were issued.

Boarding House Robbery.

Mr. James Lemon, boarding at 104 Second avenue, was robbed of a silver watch and a small sum of money on Wednesday evening. It appears that the same room was occupied by two other persons, one of whom slept with Mr. Lemon. In the evening one of the boarders left the house and did not return until about six o'clock next morning, and not having informed his room mates of his intention to remain out all night, the room door was left open to allow him to come in. Yesterday evening Mr. Lemon made information charging his room mates with the larceny, and they were arrested and locked up for a hearing.

The Lost Boy.

Wednesday evening a little boy about four years of age was left at the Allegheny Mayor's office by a conductor on one of the Allegheny and Manchester street cars, who stated that the little fellow was lost, and had been riding on his car for several trips. He was kept at the office until late in the evening, when it was ascertained that he had come from this side of the river, and the Mayor sent him over to Captain Reed. The little fellow remained at the watch house until about six o'clock yesterday morning, when his father, who resides in the Fifteenth ward, and had been searching for him all night, having heard of his whereabouts, called and took the youthful wanderer home.

THE COURTS.

United States District Court—Judge McCandless.

THURSDAY, May 6.—In the case of United States vs. James Warden, previously reported, jury returned a verdict of not guilty, and the defendant was discharged.

On motion of E. J. Keenau, Esq., J. R. M'Afee, Esq.. of Greensburg, was duly qualified and admitted to practice in the District and Circuit Courts.

The case of the United States vs. John Sandels was called up. The indictment charged the defendant with removing distilled spirits to a place otherwise than a distillery warehouse, and of evading payment of tax, etc. District Attorney Carnahan appeared for the United States, and Hons. E. Cowan and H. D. Foster, and E. J. Keenan, Esq., for defendant. The case was not concluded at the hour of adjournment.

The Grand Jury returned true bills against the following tobacco dealers for alleged failures to comply with the provisions of the Internal Revenue law: James Murphy, William McCullough, James G. Boyle, two cases, Frederick Maul, two cases, Three bills were also found against the following distillers for failing to comply with the provisions of the law: Jas. Adler and Michael McCullough.

Common Pleas—Judge Sterrett.

THURSDAY, May 6.—Reiley vs. Uppengraff. Action to recover for work and labor done. Appeal from judgment by Alderman Strain for $40. Verdict for plaintiff in the sum of $17.68.

Stein & Stein vs. J. J. Saint et al., owners of the steamer "Urilda." Action to recover damages for a lot of goods alleged to have been lost through the carelessness of defendants. The plaintiffs, it is alleged, shipped a quantity of goods, including nine barrels of whisky and a quantity of corks, which, it appears, were put off the boat at Franklin and stored in Marshall's warehouse. During the night the river raised rapidly, flooded the warehouse and washed the goods out. Plaintiffs claim damages to the amount of one thousand dollars, the alleged value of the goods, holding that the loss occurred through the negligence of defendants. It was claimed by defendants that their liability ceased when the goods were put off the boat in charge of the keeper of the warehouse. On trial.

Calhoun vs. McKim, previously reported. Verdict for plaintiff in the sum of $26.25.

TRIAL LIST FOR FRIDAY.

City Expenditures.

The expenditures from the different appropriations, to run the city government during the month of April, amount in the aggregate to $42,979.50, as shown by the balance sheet in the Controller's office. Included in this sum, however, there is an item of $15,042.27 incurred in the extension of water pipes, which comes, of course, from the Water Extension Fund, which was exhausted prior to the contraction of this bill, and consequently no warrants have been drawn for the payment thereof. The next largest item in the expenditures is for the maintenance of the police force, which, including salaries and bills for clothing, we presume, amounts to $8,142.26. There is, however, an offset to this expense of about $2,200 in the way of revenue from the Mayor's office, which decreases the actual expense of maintaining the force to about $6,000 per month.

Following are the expenditures from the several appropriations:

Removing the Bodies.

The work of removing the bodies interred in Trinity Church yard, has been in progress since Monday, and will be continued until all have been removed from the portion of the ground to be occupied by the new chapel. A number of the bodies are being removed by friends of the deceased. Those not claimed will be removed by the Trustees of the church, and re-interred in the Cemetery. This was one of the oldest burying grounds in this city, some of the tombstones being dated as early as 1776, whilst others bear dates of 1789, 1790, and up to within a few years past. It is the intention, as we have already stated, to remove only those bodies buried on the site selected for the chapel, which building will be completed before the erection of the new church edifice is commenced.

For Commissioner.

We announce this mornting the name of Chauncey B. Bostwick, Esq., for County Commissioner, subject to the decision of the Union Republican Convention. Mr. Bostwick is well known in this community as a shrewd and intelligent business man. He served as coroner with marked correctness and ability for a term of years, and has equally well acquitted himself in other positions of a public nature. Should he be elected he will make an excellent officer.

An Appeal for a Brave and Maimed Soldier.

The recent terrible conflict for the supremacy of the national government left as legacies to the American people thousands of brave men who were wounded and maimed for life, and rendered incapable of performing muscular labor for sustenance and support. To the credit of the nation be it said, that thus far, the large majority of them have been recognized as worthy the grateful remembrance of the patriotic, and they have, even out of cruel politics, been provided with positions of honor, profit and trust, where the absence of a leg or an arm could not prevent the faithful discharge of their duties. In a few days the patriotic will be called upon to cast sweet and fragrant flowers on the graves of the slain heroes, who rest quietly enough in the embrace of death, as a hallowed tribute to their memory and grateful acknowledgment of their sacrifices at the altar of Liberty. Would it not be well to interrogate our hearts at this time while we are zealously preparing to honor our loyal dead, if we are faithful to the obligations imposed upon us by the same patriotic spirit to care and provide for the gallant maimed who had limbs shattered in battle, and who in consequence are not now able to cope with the full and perfect man in life's struggle for life? The Republican party is pledged to care for these; the word was given in the darkest hour to do so; it was renewed and ratified when Peace came and vast armies were disbanded to the walks of civil life. They said, "all things considered being equal, let the maimed soldier have preference for the offices within our disposal." No charge of deviation or departure from that rule can be made with justice by our enemies. The party has been consistently faithful, and will continue so if the better promptings of nature be heeded.

Accompanying this the friends of Mr. Augustus Beckert, of Reserve township, present his name as a candidate for the Recordership, subject to the decision of the Union Republican Convention. He was among the very first to enter the army, and in the fiercest of battle with Sickle's Brigade, received three bullets in his left leg, shattering it to atoms. He endured the most acute suffering and hardships, resting without drink, food or shelter for six dreary nights, on the battle field of the Second Bull Run, and in his awful condition managed to keep the spark of life within his mutilated body by eating a few green apples and sipping water from the mud-holes about him. Amputation was necessary and was performed close upon the thigh, leaving him a wreck physically of what he once was.

After recovering he was discharged, and was subsequently employed as clerk under General James A. Ekin. As an evidence of his reliability, a copy of a commenoatory letter from General Ekin, the original of which may be seen, may here be quoted:

QUARTERMASTER GENERAL'S OFFICE,
WASHINGTON, April 12, 1869.

——, *Esq., Attorney at Law, Pittsburgh, Pa* —SIR: In reply to your letter of the 10th inst., it affords me great pleasure to state that Mr. Augustus Beckert, of Pittsburgh, Pa., was employed as a clerk at the cavalry depot, Gisboro', D. C., from December, 1864, to August, 1866, when the depot was abandoned.

Mr. Beckert is well known to me as a gentleman of excellent habits, and proved himself, while on duty under my direction, to be a competent, faithful and efficient clerk. He has my best wishes for success in any new calling upon which he may enter.

You are at liberty to use this letter in any manner that you may deem proper.

I am, sir, very respectfully, your obedient servant, JAMES A. EKIN,
Deputy Quartermaster General,
Bvt. Brig. Gen., U. S. A.

Mr. Beckert is a zealous Republican and a young man of character, standing and ability. He has all the requirements for the position and if elected will ably discharge its duties.

RESERVE TOWNSHIP.

Little Child Injured.

Last evening about five o'clock, a number of boys assembled in the vicinity of a building in course of erection on Wylie, near High street, and began to tease the workmen. One of the men, John Cuttle, a laborer, becoming enraged at the annoyance picked up a brick and threw it at his tormentors. The missile, however, went wide the mark, and struck a little girl named McCalligott, knocking her senseless. She was picked up and taken to the residence of her parents in Mellon's Court, in the vicinity, when it was discovered that the brick had cut an ugly looking gash across her forehead. Dr. Donnelly was summoned and sewed up the wound, after which the little victim began to recover and the Doctor pronounced her out of danger. The man who threw the brick was considerably frightened, as well he might, at the result of his anger. As the injury to the child, however, was not considered of a very dangerous character, he was not arrested, but he has doubtless been taught a lesson by the affair, which will be of service to him hereafter.

Wisconsin Murderer Arrested.

A detective passed through the city Wednesday night, having in custody one Wesley Nelson, charged with the murder of a farmer, named Lambert, in the vicinity of Janesville, Wisconsin, about a month since. The murder is said to have been committed in cold blood, to get possession of some eight hundred dollars. The murderer also stole a horse to assist him in his flight. He was traced to a point one hundred and fifty miles from the scene of the murder, where he sold the horse. He received, however, only part of the sum he required for the animal, and arranged for the remainder to be remitted to him at Shermandale, Perry county, Pa., where he was arrested. The officer was allowed to take his prisoner without the usual requirement of a requisition.

Drowned in Oil.

On Wednesday morning a man named Steel was drowned in a tank of oil, at Foster, on the line of the Allegheny Valley Railroad, a short distance from the city. He had been sent out to examine the oil, and not returning in about three hours afterwards, search was instituted. It was surmised that he had fallen into the oil, and a pair of grappling irons having been procured, the surmise were proved correct by the dragging out of his body. It is supposed he became overpowered by the gas escaping from the oil, and thus loosing his balance fell in.

The body will be removed for burial, to the late home of the deceased in the neighborhood of New Brighton.

Wine Growers' Association—Permanent Organization.

A final meeting was held, yesterday afternoon, in Lutz and Waltz's Hall, Chestnut street, Seventh Ward, Allegheny. for the purpose of effecting a permanent organization of the proposed Wine Growers' Association of Western Pennsylvania

The attendance was much larger than at any previous meeting, nearly every prominent wine grower in this vicinity, together with several representatives from Ohio, being present.

Mr. Wm. A. Reed presided, and Mr. Otto Krebs officiated as Secretary.

The President stated the object of the meeting, after which the constitution, prepared by a committee appointed for the purpose, was presented and unanimously adopted.

In accordance with the constitution, an election for officers to serve for the ensuing year, was held with the following result: President, Wm. A. Reed; Vice President, John Voegtly, Sr.; Recording Secretary, Otto Krebs; Corresponding Secretary, William Hamilton; Treasurer, Charles L. Goehring.

The question of procuring a charter of the Association was taken up. After considerable discussion it was decided to postpone action in this matter for the present, with the understanding that if desirable the charter would be procured next fall.

A Committee of five, with Dr. Hardtmeyer as Chairman, was appointed to investigate and report at the next meeting upon the condition of the grape growing interests of Western Pennsylvania, and the best locations for the culture of the fruit.

The matter of establishing an emporium for the sale of the products of the Association was discussed, but no definite action was taken. This idea, however, will be carried out as soon as the organization is firmly established.

It is designed some time next fall to hold an exhibition in Pittsburgh, to which every grape grower in Western Pennsylvania is requested to contribute specimens of the fruit grown by him. The time and place of holding this exhibition will be properly announced.

It was decided to hold the regular meetings quarterly, after which the Association adjourned to meet on the first Monday of July next.

Amusements.

OPERA HOUSE.—"Humpty Dumpty" continues to draw large audiences to the Opera House. There was a change of scenery last evening, and the effect was very remarkable. New tricks and transformations will be introduced this evening, which will give additional interest to the entertainment.

PITTSBURGH THEATRE.—The entertainment at the Pittsburgh Theatre last evening, was the occasion of Mr. Harry Overington's benefit. This evening Mr. George Miller will take a benefit, and a new and attractive bill will be presented, including the names of Miss Engel and Mr. Cavenaugh.

ACADEMY OF MUSIC.—Monday evening next the great national drama entitled "The Renegade of the Potomac," will be presented for the first time, at the Academy of Music, for the benefit of Posts 35 and 88 of the Grand Army of the Republic.

LAFAYETTE HALL.—Dr. Gleason continues his popular lectures at Lafayette Hall during the present week. The lectures are not only highly interesting but very instructive.

MASONIC HALL.—Prof. Everett, the wonderful Prestidigitator, was greeted by a large audience at Masonic Hall last night. We scarcely know whether it is the Professor's wonderful tricks or the valuable presents he distributes to the audience each evening, that draws such crowds. Fifty dollars in greenbacks was the largest prize drawn last evening.

EXHIBITION.—The first exhibition of the Deaf and Dumb Teachers of the Franklin street Mission Sabbath School, was held last evening in the Third U. P. Church, Diamond street. The exercises were all conducted in the deaf and dumb signs, and the pupils participating evinced rapid progress in their studies.

Important to Merchants.

Merchants who desire to advertise their business thoroughly and well through the country, as every enterprising merchant should, will find it to their advantage to operate through some reliable advertising agency—and we can confidently recommend for this purpose the well-known firm of Coe, Wetherill & Co., who have established themselves in new quarters in the Bulletin Building, No. 607 Chestnut street. The change of location was necessitated by the enormous increase of business which has resulted from the growing popularity of the firm among its patrons. Messrs. Coe, Wetherill & Co. are in direct communication with all the best newspapers in the country north, south, east and west, and they are in a position to furnish advice and facilities to business men who desire to advertise in any portion of the country. Merchants who deal through them will be sure to obtain their money's worth, and not to waste a dollar upon sheets without circulation or influence. Messrs. Coe, Wetherill & Co. do not ask their customers to take these statements for granted. They have in their possession countless testimonials, given voluntarily by those with whom they have dealt, proving the efficacy of their system. They are reliable and prompt, and they are enabled to secure the very lowest rates for all parties. We recommend them to the public as worthy of liberal patronage.—*Evening Bulletin, Phil'a.*

Maxims for Young Ladies.

Train yourself to useful occupation. Remember it is wicked to waste time, and nothing gives such an impression of vanity as a habit of idling and never having anything to do.

If you are in your father's house, take some department of the house labor upon yourself. This you can do by providing yourself with a good Sewing Machine.

The Sewing Machine has been established as the required friend, but if a Sewing Machine fails, through some imperfection, to perform its duties, it is a drawback rather than a helpmate. It must be reliable, must accomplish excellent and durable work, must be adapted to various thicknesses of material, must be simple in construction, and easily operated. The Weed Sewing Machine possesses all these meritorious qualities.

"This the new Weed Machine that will furnish the time
To read and to play—for music and rhyme.
Come, see what 'twill do!
Plain sewing, the lightest and heaviest, too;
'Tis so simple a child can use it as well
As I. 'Twill hem, tuck, quilt, cord and fell;
'Twill gather and sew on a ruffle; and bind—
('Tis the only machine that's quite perfect, you'll find)—
'Twill hem-stitch so nicely! It works like a charm!"
When we intepret this saying, 'tis seen
To apply in full force to the F. F. Machine.

Jealousy.

Amanda Thompson and Mary Jane Jones, colored females, unfortunately have mutually set their affections upon a dusky masculine, which naturally has a tendency to cause a feeling of jealousy and rivalry to spring up between them. The adored one seems to enjoy the situation, for instead of putting an end to the affair by cleaving unto the one and forsaking the other, he vacillates, first toward Amanda and again toward Mary Jane, and thus both are kept in a state of excitement. Lately he returned from a steamboat trip to Cincinnati, and upon his arrival in this city repaired at once to the habitation of Amanda. Mary Jane hearing of this proceeding called at Amanda's residence on Wide alley, to investigate. The result was as might have been expected. A war of words ensued, during which it is alleged. Mary Jane threatened to be the means of causing Amanda to "shuffle off this mortal coil," and thus end the rivalry. Alarmed at this, Amanda, yesterday, made information before Alderman McMasters against Mary for surety of the peace. War-rant issued.
